Bridging Diversity:

Bridging Diversity Martha Pickman Baltzell, 1997 After raising three children in an affluent Philadelphia suburb Martha became a volunteer at the Southwest Community Enrichment Center directed by Sister Anne Boniface Doyle Bridging Diversity describes her 25 years at the center Her vivid narrative brings the people working at and using the center to life This book is not just another case study of poverty It is the personal journey of one woman who attempts to learn to understand people of a profoundly different background It puts a human face to a pressing social issue relations between haves and have nots

Bridging Diversity Lawrence F. Transforming Understandings of Diversity in Higher Education Penny A. Pasque, Noe Ortega, Marie P. Ting, John C. Burkhardt, 2023-07-03 This exciting new text examines one of the most important and yet elusive terms in higher education and society What do we mean when we talk in a serious way about diversity A distinguished group of diversity scholars explore the latest discourse on diversity and how it is reflected in research and practice The chapters trace how the discourse on diversity is newly shaped after many of the 20th century concepts of race ethnicity gender and class have lost authority In the academic disciplines and in public discourse perspectives about diversity have been rapidly shifting in recent years This is especially true in the United States where demographic changes and political attitudes have prompted new observations some which will clash with traditional frameworks This text brings

together scholars whose research has opened up new ways to understand the complexities of diversity in higher education. Because the essential topic under consideration is changing so quickly, the editors of this volume also have asked the contributors to reflect on the paths their own scholarship has taken in their careers and to see how they would relate their current conceptualization of diversity to one or more of three identified themes: demography, democracy, and discourse. Each chapter ends with a candid graduate student interview of the author that provides an engaged picture of how the authors wrestle with one of the most complicated topics shaping them and all of us as individuals and as scholars. Of interest to anyone who is following the debates about diversity issues on our campuses, the book also offers a wonderful introduction to graduate students entering a discipline where critically important ideas are still very much alive for discussion.

Handbook of Diversity in Feminist Psychology Hope Landrine, Nancy Felipe Russo, 2009-12-17. With the publication of the Handbook of Diversity in Feminist Psychology, the field of feminist psychology has achieved a new depth; the volume is a sophisticated and cutting-edge compendium that not only describes the state of the field but also pushes its boundaries in important ways. Sex Roles: A Journal of Research is critical for all those who are in the field of psychology to own, refer to, and use. No longer are diversity and gender issues considered to be on the periphery as they once were; one would be remiss in not considering these factors in psychology.

Florence L. Denmark, PhD, From the Foreword, Author, Psychology of Women: FINALLY. A collection of work that is built on decades, if not centuries, of hard work from many feminists of color and our allies. This is one of the few books that delves deeply into the complex world of considering the human condition in cultural context; something psychology is only relatively recently trying to do. This book is a must-have for anyone interested in feminism OR diversity issues. It is a great example of feminist multiculturalism, and both fields—i.e., feminism and multicultural psychology—should consider it an example of how to merge theoretical orientations in a way that is fitting for real people. I LOVE this book.

Geneva Reynaga Abiko, Psy D. This handbook presents a multicultural approach to diversity in feminist psychology. Provocative and timely, the text comprehensively discusses the cutting edge of feminist discourse, covering major topics such as multicultural feminist theory, gender discrimination, aging, health, and therapy, violence and harassment, politics, and policy, and much more. The unique quality of this book is that each contributor brings her own cultural perspective, values, and concerns to her chapter. Special emphasis is also given to the intersectionality of minority identities such as race, ethnicity, social class, sexual preference, and other socially constructed status differences among women.

Key Topics Discussed: Intimate partner violence, perspectives from ethnic groups in the United States, Gender transgressive sexual minorities, HIV/AIDS among women of color and sexual minority women, Psychological perspectives on older women including transitions, cognitive functioning, and mental health, Ethnicity, disordered eating, and body image, Methodological and statistical issues in research with diverse samples, Low-income women, women with disabilities, workers, and immigrants, refugees.
