Memory and Family in Australian Refugee Histories Alexandra Dellios,2020-06-09 This book revisits Australian histories of refugee arrivals and settlement with a particular focus on family and family life It brings together new empirical research and methodologies in memory and oral history to offer multilayered histories of people seeking refuge in the 20th century Engaging with histories of refugees and family and how these histories intersect with aspects of memory studies including oral history public storytelling family history and museum exhibitions and objects the book moves away from a focus on individual adults and towards multilayered and rich histories of groups with a variety of intersectional affiliations The contributions consider the conflicting layers of meaning built up around racialised and de racialised refugee groups throughout the 20th century and their relationship to structural inequalities their shifting socio economic positions and the changing racial and religious categories of inclusion and exclusion employed by dominant institutions As the contributors to this book suggest family functions as a means to revisit or research histories of mobility and refuge This focus on family illuminates intimate aspects of a history and the emotions it contains and enables complicating the passive victim stereotype often applied to refugees As interest in refugee integration continues to rise as a result of increasingly vociferous identity politics and rising right wing rhetoric this book offers readers new insights into the intersections between family and memory and the potential avenues this might open up for considering refugee studies in a more intimate way This book was originally published as a special issue of Immigrants Minorities

What Is a Family Justice System For? Mavis Maclean,Rachel Treloar,Bregje Dijksterhuis,2022-08-25 Does a justice system have a welfare function If so where does the boundary lie between justice and welfare and where can the necessary resources and expertise be found In a time of austerity medical emergency and limited public funding this book explores the role of the family justice system and asks whether it has a function beyond decision making in dispute resolution Might a family justice system even help to prevent or minimise conflict as well as resolving dispute when it arises The book is divided into 4 parts with contributions from 22 legal scholars working across Europe Australia Argentina and Canada Part 1 looks at what constitutes a family justice system in different jurisdictions and how a welfare element is included in the legal framework Part 2 looks at those engaged with a family justice system as professionals and users and explores how far private ordering is encouraged in different countries Part 3 looks at new ways of working within a family justice system and raises the question of whether the move towards privatisation derives from the intrinsic value of individual autonomy and acceptance of responsibility in family disputes or whether it is also a response to the increasing burden on the state of providing a welfare minded family justice system Part 4

explores recent major changes of direction for the family justice systems of Australia Argentina Turkey Spain and Germany
