Desmond, 2011-03-16 Ideas About Art is an intelligent accessible introductory text for students interested in learning how to think about aesthetics It uses stories drawn from the experiences of individuals involved in the arts as a means of exposing readers to the philosophies theories and arguments that shape and drive visual art An accessible story driven introduction to aesthetic theory and philosophy Prompts readers to develop independent ideas about aesthetics this is a guide on how to think not what to think Includes discussions of non western contemporary and discipline specific theories Examines a range of art based dilemmas across a wide variety of disciplines from art and design and law to visual and museum studies *Art as Information Ecology* Jason A. Hoelscher, 2021-08-09 In Art as Information Ecology Jason A Hoelscher offers not only an information theory of art but an aesthetic theory of information Applying close readings of the information theories of Claude Shannon and Gilbert Simondon to 1960s American art Hoelscher proposes that art is information in its aesthetic or indeterminate mode information oriented less toward answers and resolvability than toward questions irresolvability and sustained difference These irresolvable differences Hoelscher demonstrates fuel the richness of aesthetic experience by which viewers glean new information and insight from each encounter with an artwork In this way art constitutes information that remains in formation a difference that makes a difference that keeps on differencing Considering the works of Frank Stella Robert Morris Adrian Piper the Drop City commune Eva Hesse and others Hoelscher finds that art exists within an information ecology of complex feedback between artwork and artworld that is driven by the unfolding of difference By charting how information in its aesthetic mode can exist beyond today s strictly quantifiable and monetizable forms Hoelscher reconceives our understanding of how artworks work and how information operates *Queries with Answers in Literature, Art, Science, Education* Charles Wells Moulton, 1886 **Art's Way Out** John Baldacchino, 2012-03-26 In taking the critique of inclusion and entry as a first step Art s Way Out s discussion of art politics and learning aims to delineate what an exit pedagogy would look like where culture is neither seen as a benign form of inclusion nor as a hegemonic veil by which we are all subscribed to the system via popularized forms of artistic and cultural immediacy An exit pedagogy as prefigured in what could be called art s way out through the implements of negative recognition qua impasse would not only avoid the all too facile symmetrical dualism between conservative and progressive liberal and critical pedagogies but also seek the continuous referral of such

symmetries by setting them aside and look for a way out of the confined edifices of education and culture per se An exit pedagogy seeks its way out by reasserting representation in the comedic the jocular and more effectively in the arts power of pausing as that most effective way by which aesthetics comes to effect in its autonomist and radical essence In this fluent limpid and scholarly work Baldacchino examines inter alia the problem of empathy in relation to art as an event or series of events drawing upon a wide and rich range of sources to inform what in effect is his manifesto With a profound understanding of its philosophical basis Baldacchino unfolds his argument in an internally consistent and elegantly structured way This is not a book to be dipped into to do so would miss the development of Baldacchino s philosophical position like an art work itself Art s Way Out has coherent structure and a complex interrelation between form and content reflecting an artist s concern for getting things right Richard Hickman Cambridge University Although art has a limitless capacity to take on myriad responsibilities according to Baldacchino we also need to consider a way out because only then will we understand how art goes beyond the boundaries of possibility As he explains our way into reason also comes from an ability to move outside the limits that reasons sets This is the exit pedagogy that he advocates And here exit does not mean to leave but rather to reach beyond to extend and explore outside the borders we impose on learning teaching schooling and most forms of cultural agency The need to embrace the capacity of art to cycle beyond the contingencies we impose on it also helps to clarify the limits of inclusive arguments for deploying art education for various individual institutional and socio political ends art as self expression art as interdisciplinary method art as culture industry art as political culture art as social justice and so on This image invokes for me part of the legacy of Maxine Greene that Baldacchino revealed in his earlier text Education Beyond Education 2009 when he explored her thesis of the social imagination which is best achieved when teaching becomes reaching What Art s Way Out gives us is an exit strategy from the deadening tendency to ignore the enduring capacity of art to give life to learning teaching and the very culture of our being Graeme Sullivan Penn State University This is the sixth book authored by John Baldacchino the other most recent books being Education Beyond Education Self and the Imaginary in Maxine Greene s Philosophy 2009 and Makings of the Sea Journey Doubt and Nostalgia 2010 Currently Associate Dean at the School of Art Design University College Falmouth in England he was full time member of faculty at Columbia University s Teachers College in New York Gray s School of Art in Scotland and Warwick University in England Front cover image Monument to Marx we should have spoken more 2009 by Mike Ting
