Stevens Curl, Susan Wilson, 2015 With over 6 000 entries this is the most authoritative dictionary of architectural history  
available      Concrete Susan Macdonald, 2008-04-15 This book deals with the diagnosis prognosis and repair issues  
associated with concrete buildings Since the patenting and subsequent large scale manufacture of modern cement in the  
nineteenth century concrete has become one of the most widely used construction materials in the world Those concerned  
with building pathology now need to understand problems specifically related to concrete and to identify appropriate  
methods of repair and remediation This book brings together experts in the history defect diagnosis remediation and  
maintenance of concrete It includes case studies from around the world to illustrate the various repair methods available It  
will provide an invaluable guide for architects building surveyors structural engineers and specialist contractors as well as  
students of building pathology and conservation      *The Architects' Journal* , 2003      *The Illustrated Encyclopedia of
