As Man Becomes Machine David M. Rorvik,1973 **As Man Becomes Machine** David M. Rorvik,1973 *Cyborg Cinema and Contemporary Subjectivity* S. Short,2004-11-10 This book breaks new ground in providing an in depth critical assessment of cyborg cinema arguing that it remains one of the most intriguing and provocative cycles to have emerged in contemporary screen culture Tracing the cinematic cyborg s transition over the last two decades and evaluating the theoretical significance attributed to this figure it asks what relevance the cyborg continues to have in terms of understanding human identity our relationship to technology and to one another *The Future of Immortality* Anya Bernstein,2019-06-25 A gripping account of the Russian visionaries who are pursuing human immortality As long as we have known death we have dreamed of life without end In *The Future of Immortality* Anya Bernstein explores the contemporary Russian communities of visionaries and utopians who are pressing at the very limits of the human *The Future of Immortality* profiles a diverse cast of characters from the owners of a small cryonics outfit to scientists inaugurating the field of biogerontology from grassroots neurotech enthusiasts to believers in the Cosmist ideas of the Russian Orthodox thinker Nikolai Fedorov Bernstein puts their debates and polemics in the context of a long history of immortalist thought in Russia with global implications that reach to Silicon Valley and beyond If aging is a curable disease do we have a moral obligation to end the suffering it causes Could immortality be the foundation of a truly liberated utopian society extending beyond the confines of the earth something that Russians historically have pondered more than most If life without end requires radical genetic modification or separating consciousness from our biological selves how does that affect what it means to be human As vividly written as any novel *The Future of Immortality* is a fascinating account of techno scientific and religious futurism and the ways in which it hopes to transform our very being [Militarizing Outer Space](#) Alexander C.T.
