Asia Color Quest:

The Routledge International Handbook of Colorism Ronald E. Hall, Neha Mishra, 2024-08-04 This timely and unique edited book explores the concept of colorism which is discrimination based on the color of a person's skin. It takes a global approach that draws on authentic voices from varied contexts and is dedicated to exploring and enriching the diverse intellectual discourse on colorism. The book explores colorism across the globe and studies how it has been woven into the cultural fabric of communities of color. With 22 chapters organized geographically into parts representing six continents, it looks at various facets of colorism, offering international insights beyond a Western perspective. The handbook examines policy making in the sphere of colorism internationally and across countries and provides thoughtful insights on colorism discrimination in different contexts. Chapters are written by leading experts from different disciplinary backgrounds who present cutting edge research on the topic of colorism in different country contexts, contributing to a global dialogue on colorism. The Routledge International Handbook of Colorism comprehensively highlights colorism and skin color bias which blurs the national and international boundaries. It will be a fascinating reading for students and academics in psychology, social work, education, criminal justice, and other social sciences. It will also be of interest to those working in areas relating to marginalization, human rights, diversity, and inclusion.

Hall, 2003 Without minimizing White racism or other forms of Western social ills and without criticizing or passing judgements on Asian American Hall, human ecology and social work Michigan State U offers some insight into the implications of skin color for Asian Americans demonstrating a form of interaction among those who would otherwise be considered post colonial victims. Among the dimensions he explores are the sport of color, psychological colonization, the bleaching syndrome, a survey of Asian's color bias in the Philippines, what Asian American women say, Eurasian identity, racism through skin color, and beyond race.
