**Engaging Dialogue** Jennifer O'Meara, 2018-04-13 O Meara highlights how speech can be central to cinema without overshadowing its medium specific components and demonstrates how indie dialogue can instead hinge on an idea of cinematic verbalism Television, Japan, and Globalization Mitsuhiro Yoshimoto, Eva Tsai, JungBong Choi, 2016-02-02 Television Japan and Globalization makes a monumental contribution to the literature of television studies which has increasingly recognized its problematic focus on US and Western European media and a compelling intervention in discussions of globalization through its careful attention to contradictory and complex phenomena on Japanese TV Case studies include talent and stars romance anime telops game and talk shows and live action nostalgia shows The book also looks at Japanese television from a political and economic perspective with attention to Sky TV production trends and Fuji TV as an architectural presence in Tokyo The combination of textual analysis clear argument and historical and economic context makes this book ideal for media studies audiences Its most important contribution may be moving the study of Japanese popular culture beyond the tired truisms about postmodernism and opening up new lines of thinking about television and popular culture within and between nations Modern Age Russell Kirk, 2002 **Sight and Sound** , 2006
