Dornier Do 335:

Dornier Do 335 Pfeil/Arrow Eddie J. Creek, J. Smith, 2017-08-05 Often described as brutal yet innovative in design the massive push pull Dornier Do 335 all weather heavy fighter was symbolic of late war German aircraft design an extraordinary aircraft which could have been deadly in combat but ultimately arrived too late to prove itself Maybe because of its unrealized potential the 335 has held a special fascination for aviation enthusiasts historians and modelers ever since its existence became public knowledge The authors have now fully revised updated and significantly expanded their work by approximately 80 pages incorporating in particular over 150 additional rare photographs diagrams and new material about the development construction and flying of the 335 and the little known projects and concepts it spawned Backed up by superb color profile artwork and detailed line drawings this book represents the finest research on this enigmatic aircraft

Dornier Do 335 Pfeil B Marek Ryś, 2022-03-31 The Dornier Do 335A did not meet all the Luftwaffe requirements First the cockpit armor was too weak which excluded the machine from the role of a fighter intercepting heavily defended Allied bombers Therefore in the summer of 1944 a modified version of the Do 335 marked with the letter B was developed The main difference was to be an armored pilot's cockpit with a new easier to manufacture windscreen The front wheel had larger tire To be able to retract it without any changes in the landing gear bay construction it was rotated around the leg axis by 45 degrees during the retraction The rest of the equipment and weapons were to be the same as in the case of the Do 335A 1 The developed version was designated Do 335B 1 but it was quickly abandoned in favor of heavily armed versions B 2 and B 3 known as Zerstörer The prototypes of the version B 2 were Do 335M 13 and M 14 powered like the A 1 by the DB 603E front and DB 603QE rear engines but with significantly reinforced armament The 15 mm MG 151 15 cannons above the engine were replaced with a 20 mm MG 151 20 and the wings were fitted with two 30 mm MK 103 cannons with 70 rounds per barrel The same cannon fired through the propeller axis

Dornier Do 335 Karl-Heinz Regnat, 2003 This is the first comprehensive well illustrated documentation on the Do 335 one of the milestones in German aviation history The Do 335 was developed by Dornier as a heavy fighter in 1943 One of the last high performance piston engined aircraft designed the Do 335 was powered by tandem fore aft engines a concept proven in numerous Dornier flying boats As a result of this configuration drag was reduced to little more than that of a single engined aircraft enabling the Do 335 to achieve very high speeds The Do 335 represented the apex of propeller driven aircraft in the Second World War

Dornier Do 335 J. Richard Smith, Eddie J. Creek, Gerhard Roletschek, 2006 The massive push pull Do 335 all weather heavy fighter was capable of a maximum speed in excess of 750 km/h at 6400m In marked contrast to the many other futuristic designs produced in the dying days of the Reich some forty examples were built and several were flown The authors have unearthed much previously unpublished material and dispel many myths about the aircraft This title is not yet published Your order will be recorded and the book dispatched when it becomes available Your credit debit card will not be charged until that time

Aircraft of the

Luftwaffe, 1935-1945 Jean-Denis G.G. Lepage,2009-03-23 One of the most significant innovations in modern warfare has been the appearance and development of air power a technology which demanded technical and financial investment on a whole new scale and which ultimately changed the fundamental nature of war itself This book covers the history and development of the German air force from 1935 to 1945 with descriptions and illustrations of almost all of the Luftwaffe s airplanes including fighters jet fighters dive bombers ground attackers medium and heavy bombers jet bombers seaplanes flying boats and carrier planes transport and gliders reconnaissance and training aircrafts helicopters and many futuristic projects and other rarities **Dornier Do 335 Pfeil** ,1966 The Race for Hitler's X-Planes John Christopher,2012-10-01 During World War 2 Hitler s engineers had pioneered an incredible array of futuristic secret weapons from the Me 262 the first operational jet fighter to the deadly V2 inter continental ballistic missile With the Third Reich shattered and lying in ruins in the summer of 1945 the Allies launched a frantic race to grab what they saw as the justifiable spoils of war The Americans and Russians in particular were anxious to secure not only the aircraft and the research and production facilities but also the key German scientists and engineers This Nazi technology would define the balance of power in the phoney peace of the Cold War era launching an arms race that shaped our modern world for decades to come But what of Britain s role in this supermarket sweep The Race for Hitler s X Planes tells the untold story of the British mission to Germany

Rcaf War Prize Flights, German and Japanese Warbird Survivors Harold A. Skaarup,2006-05-23 This handbook concerns the collection of Air Technical Intelligence and the test flying of war prizes carried out by two RCAF bomber pilots who were posted to the Royal Aircraft Establishment s Foreign Aircraft Flight Farnborough in the United Kingdom in May 1945 Their primary task was to visit former Luftwaffe airfields and to find and fly back any aircraft they deemed worthy of evaluation The list of aircraft found here does not include every German combat aircraft of the Second World War as it focuses on those warbirds captured and flown by members of the RCAF or sent to Canada as war prizes Very few of these rare aircraft exist today and therefore information on known locations where German Japanese and Italian warbird survivors may be found is included As a member of the Canadian Aviation Preservation Association and the Canadian Aviation Artists Association the author strongly supports the preservation of Canada s aviation heritage The primary intent of this handbook is to provide information for aviation artists and enthusiasts looking for that unusual never before painted military aviation subject and to support the efforts of those engaged in the search for those missing warbirds for which no examples currently exist **ACES HIGH MAGAZINE ISSUE 13 (Inglés)** , *German Warplanes of World War II* Christopher Chant,2001 This text is a comprehensive look at the military aircraft that flew for the Luftwaffe in World War II it covers all aspects including details on design development history service records as well as performance and crew members **Canadian Warplanes** Harold A.
