Race, Ethnicity and Nuclear War Paul Williams,2011-10-18 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library Ranging across novels and poetry critical theory and film comics and speeches Race Ethnicity and Nuclear War Representations of Nuclear Weapons and Post Apocalyptic Worlds explores how writers thinkers and filmmakers have answered the following question are nuclear weapons white Many texts respond in the affirmative and arraign nuclear weapons for defending a racial order that privileges whiteness They are seen as a reminder that the power enjoyed by the white western world imperils the whole of the Earth Furthermore the struggle to survive during and after a speculated nuclear attack is often cast as a contest between races and ethnic groups Race Ethnicity and Nuclear War listens to voices from around the Anglophone world and the debates followed do not only take place on the soil of the nuclear powers Filmmakers and writers from the Caribbean Australia and India take up positions shaped by their specific place in the decolonizing world and their particular experience of nuclear weapons The texts considered in Race Ethnicity and Nuclear War encompass the many guises of representations of nuclear weapons the Manhattan Project that developed the first atomic weapons the destruction of Hiroshima and Nagasaki nuclear tests taking place around the world and the anxiety surrounding the superpowers devastating arsenals Of particular interest to SF scholars are the extensive analyses of films novels and short stories depicting nuclear war and its aftermath New thoughts are offered on the major texts that SF scholars often return to such as Philip Wylie s Tomorrow and Pat Frank s Alas Babylon and a host of little known and under researched texts are scrutinized too

Late Cold War Literature and Culture Daniel Cordle,2017-03-03 This book analyses the 1980s as a nuclear decade focusing on British and United States fiction Ranging across genres including literary fiction science fiction post apocalyptic fiction graphic novels children s and young adult literature thrillers and horror it shows how pressing nuclear issues were particularly the possibility of nuclear war and how deeply they penetrated the culture It is innovative for its discussion of a nuclear transatlantic placing British and American texts in dialogue with one another for its identification of a vibrant young adult fiction that resonates with more conventionally studied literatures of the period and for its analysis of a politics of vulnerability animating nuclear debates Placing nuclear literature in social and historical contexts it shows how novels and short stories responded not only to nuclear fears but also crystallised contemporary debates about issues of gender the environment society and the economy

Children and Cultural Memory in Texts of Childhood Heather Snell,Lorna Hutchison,2013-11-07 The essays in this collection address the relationship between children and cultural memory in texts both for and about young people The collection overall is concerned with how cultural memory is shaped

contested forgotten recovered and re circulated sometimes in opposition to dominant national narratives and often for the benefit of young readers who are assumed not to possess any prior cultural memory From the innovative development of school libraries in the 1920s to the role of utopianism in fixing cultural memory for teen readers it provides a critical look into children and ideologies of childhood as they are represented in a broad spectrum of texts including film poetry literature and architecture from Canada the United States Japan Germany Britain India and Spain These cultural forms collaborate to shape ideas and values in turn contributing to dominant discourses about national and global citizenship The essays included in the collection imply that childhood is an oft imagined idealist construction based in large part on participation identity and perception childhood is invisible and tangible exciting and intriguing and at times elusive even as cultural and literary artifacts recreate it Children and Cultural Memory in Texts of Childhood is a valuable resource for scholars of children s literature and culture readers interested in childhood and ideology and those working in the fields of diaspora and postcolonial studies

The Big Bang James D. Forman, 1989 As he relates the events leading up to the terrible accident that kills his wild and much admired older brother and seven friends Chris as the lone survivor tries to sort out his confused feelings of guilt grief and anger and to better understand the kind of person his brother really was

Voices Prophesying War Ignatius Frederick Clarke, 1992 The literature of future wars is an exciting and popular genre embracing classics such as The War of the Worlds and mass market bestsellers such as The Amtrak Wars Here sci fi meets the spy thriller the war novel meets the novel of dystopia quality fiction meets the bestseller Orwell s Nineteen Eighty Four Erskine Childers s The Riddle of the Sands and Ray Bradbury s Fahrenheit 451 are typical in combining critical and commercial success This new edition of Voices Prophesying War shows how the genre developed accounts for its success and describes how it is still changing The first examples of such fiction are as much concerned with politics as with war The Anonymous Reign of George VI published in 1763 and set in 1918 describes the triumphant imperialism of an English monarch who still leads his troops into battle on horseback A century later the first recognizable classic of the genre The Battle of Dorking played on the theme of unpreparedness for war describing a Prussian invasion of the British Isles Imaginary invasions by the French Germans Americans Russians Soviets and of course Martians followed in huge numbers Throughout the nineteenth century novelists wrote with increasing sophistication on the technology of war often as in the case of Conan Doyle and H G Wells they were in advance of the generals and scientists and their prophesies were fulfilled in terrible fashion by two world wars Since the Second World War American authors have come to the fore and the nuclear age has produced such classics as Nevil Shute s On the Beach The Cold War has also given rise to a great many bestsellers some like General Sir John Hackett s The Third World War marking a return to an older theme of predictions of war by professional soldiers This new edition of Voices Prophesying War examines recent work in detail and includes a unique checklist of all major future war fiction in English French and German to have appeared since the eighteenth century

Nuclear Holocausts Paul

Brians,1987 The anxiety caused by the thought of nuclear war causes some people to avoid the topic altogether some to despair and others to place unwarranted confidence in scientific or governmental control However the vivid characters and realistic settings of fiction can bring home the impact of a nuclear war in a way that makes the topic difficult to avoid and allows readers to confront their fears and phobias This bibliography study is the only compilation of its kind to deal exclusively with nuclear war in fiction The first five chapters provide a historical survey of the development of the nuclear war theme and a study of the causes and aftermath of nuclear war as treated in literature In addition Brians considers the significant failure of some works to confront the subject and the success of others as educational tools With a clear focus on the subject of war this work does not deal with such related topics as nuclear accidents reactor disasters or near war situations The bulk of the book is given over to the detailed annotated bibliography which consists of over 800 entries with associated checklists Intended to provide scholars librarians and general readers with ready access to a great variety of information about his body of writing the bibliography lists both hardcover and paper editions of books and the reprinting of each short story and corrects several errors in other standard reference works In his critical analysis and through the annotations in the bibliography Brians attempts to improve our understanding of cultural attitudes toward the dangers posed by the ever present reality of nuclear weaponry Jacket Values in Selected Children's Books of Fiction and Fantasy
