

Painted by John Meade

Shell guide to DORSET

Dorset ends or begins with the strangest coast of any county. Here the view is eastward from Abbotsbury, celebrated for its swannery and for St Catherine's Chapel (1), towards the dark peninsular Isle of Portland, the quarry "inland" from which Wren drew the stone for St Paul's Cathedral. On the seaward side, protecting the lake-like waters of the Fleet, curves the long sea-piled wall of pebbles known as the Chesil Bank — "chesil" coming from the Old English word for shingle. A medley of Dorset peculiarities and specialities occupies the foreground — Dorset "knobs" and a portion of Blue Vinney cheese (2), a lobster from the rocky, slabby shores, and some of the fossils from the natural geological museum of the Dorset cliffs, a fossil fish, a fossil starfish, and various sized ammonites (3) — shell-fish which once floated by gas-filled chambers in ancient shallow seas. These fossils may be two or three feet across or less than an inch, and are named after the ram's horns of the Egyptian god Ammon — horns such as those which curl on the heads of Dorset Horned Sheep (4).

Here, too, are some of the flowers and butterflies of the county, the Silver Scudded Blue, and the Ludworth Skipper first discovered at Duddle Door, near Ludworth Cove, in 1832; the striking iris or gladdon (5), the Dorset heath (6), and two flowers of Dorset's limestone cliffs, the golden samphire (7), and the Portland spurge (8). The shield (9) behind the flowers on the right is that of the Mohouses, the Dorset family who figure in John Meade Falkner's adventurous tale of the Dorset coast, *Moosefoot*, much of which takes place at the village of Fleet behind the Chesil Bank. The most famous line of Dorset's most famous poet, Thomas Hardy (1840-1930), is inscribed in the foreground.
