Dowsing and Manifesting Henry Dowser,2012-02-25 If you aren t a serious seeker don t get this book Spend over 500 and read the good books of Catherine Ponder Abraham Hicks Lynn Grabhorn Neville Goddard and Joe Vitale We read ALL of them If you get everything you want using their methods you don t need books any more Didn t work for us We put the essence of over 150 books into this We had to do the work so we had nuggets on every page that work For casual readers this may seem like cut and paste and spotty If you are motivated and focused it will be easy to read and use Multiple methods let you find what works for you Traditions are mixed and matched because that s what works Bruce Lee and all masters do this Asking new questions changes your life Dowsing is learning to ask the right questions and asking The spiritual seems banal to those who aren t ready For those ready questions transform life deeply When you consider what reviewers say look at the other books they ve reviewed and what they said I don t know you till I know your friends then I know you Much in this book has not previously been documented No other book has this many usable ideas in the field under one cover Let s cut to the chase There are two processes in life intention and experience of that intention The only thing that can block your manifesting is your own limiting beliefs This book has the longest list of potential limiting beliefs and ways to dowse and resolve or remove them easily of any book we have seen The Universe is light and information or modulation Dowsing accesses information and so is extremely useful Dowsing is a special kind of manifesting of the use of intent Intent refined can take you anywhere you want to go it can manifest anything If you can breathe you can dowse If you can dowse you can manifest Your dreams are the children of your heart the voice of your soul God the Universe seeking manifestation through you They are important You came here to manifest them There is a path you can dowse to the realization of these dreams We seek out problems for their gifts because we grow as we solve those problems You cannot solve a problem out of the same place it was created You must go to a new level of order If we have great problems it is because we are about to grow greatly Everything you see in this book and every human creation was sought out to solve some problem by someone in a state of confusion who didn t have the answer at first and asked new questions Start by asking yourself dowsing questions 1 What do I want from life What are my top five desires 2 What will I

see hear feel and know when I have successfully manifested or realized them 3 What are my five biggest blocks fears issues limitations problems shortcomings or stories about why I can't have what I want 4 What would my life be like without these 5 If I had a book that had the most powerful tools ever assembled under one cover what would I do with that 6 What would I love to create or experience using the tools in this book I mean what would make me want to dance in the street if I got it 7 What energizes me How can I do less of that 8 What energizes me How can I do more of that You are always dowsing and manifesting what you are in resonance with You are also manifesting according to the polarity you radiate The question is how to have more control over this process so it puts out more satisfying results This book gives you choices which give you new awareness so you grow into what you seek Do not get this book to be taught come to be transformed to transform yourself Dowsing does this This book is about becoming who you truly are about realizing your mission and purpose in life in fun ways that surprise and delight you Very similar to Redneck Shaman and The Key to the Secret Authors differed on how the final product

Dowser,2013-05-25 What is dowsing It is the use of intuition with a readout device or scale Dowsing is also expression of intent Does it work In a word yes In fact it is always working in the background because intuition intent and awareness are always on Dowsing is paying attention to what is already there This book gives the basics of and how to solve problems with dowsing In our Western Culture the Church was threatened by Science and they agreed to split the unseen world and the seen world or head and heart In Newton and Descartes physical world there is no action at a distance other than gravity The whole is merely the sum of the parts for we live only in a physical world But that is only a paradigm a limiting belief system in one culture Dowsing has been used for 98% of human history For those who doubt this spend a year in the woods with almost nothing of civilization Dowsing is as natural as breathing or seeing In the so called civilized world we live in there is a lot of noise and static which blocks the conscious sensation of dowsing Let s use a metaphor When I was a kid we would buy shoes at a Department store usually Sears Roebuck Co As I recall we had to first locate the Department store The grocery store did not sell shoes Then we had to locate the shoe department We would get to the style we wanted Then a shoe salesman would come out size my feet and get 2 3 selections of shoes I would try them on pick what felt best and we d buy them Anything physical can be used as a metaphor For dowsing first we get to the store the correct state of mind the EEG state This must be at least the Alpha EEG of about 7 14 Hz Then we have to go to the correct department just as a dowser must narrow down the scope of what s he seeks with finely crafted questions Then we get preliminary feedback and work with the subconscious mind the salesclerk to refine what we seek The subconscious mind goes to the superconscious and returns with the answer We get it and then work with it Dowsing critiques say it doesn t work that it has been debunked because it can t work The French Academy of Sciences debunked meteorites in the 1840 s because there were no stones in the sky About 1908 the New York Times debunked heavier than air flying machines as impossible In the late 1890 s the head of the U S
