KEEPING WATCH PB Michael O'Malley, 1996-04-17 Focusing on the period from 1820 to 1920 Keeping Watch details the far reaching changes in American society brought about by the transition from natural to mechanical sources of time from farmers almanacs and religious formulations of time to regional time zones synchronized watches and factory punch clocks Michael O Malley show how the pressures of industrialization the emergence of the telegraph and the spread of railroads led to a demand for uniform consistent schedules Chronicling particular communities resistance to standard time and later daylight saving time Keeping Watch also examines the cut and paste manipulation of real time in motion pictures The cumulative impact of these technological changes O Malley argues was momentous creating a harsher ethic of punctuality and an unprecedented degree of labor regimentation Book jacket
