## **Deadly Procurement:**

*Deadly Procurement* Howard Livingston, 2003-04 In his uniquely witty way Tom Alman provides a humorous but informative look at some of life's most perplexing issues. In the process he dissects a number of sacred cows. Mr. Alman exposes numerous inefficiencies in both private business and government agencies and discusses the proper role of government in our democracy. He identifies the factors that make America great and endorses while questioning the political system that will preserve this greatness. Alman goes on to suggest reforms and/or the abolishment of some of our beloved institutions including our legal system, public education, the Internal Revenue Service, and the Post Office. He even dares to rank the last ten presidents giving supporting rationale. Marching bravely into the taboo area of religion, he discusses the evolution of modern religions and dares even to discuss the value of prayer, the importance of church attendance, and how certain we can be of God's Will. His examination of man's reluctance to assume personal responsibility and strange behavior in the delicate areas of race relations and sex is really intriguing. Mr. Alman's book comes alive through the cast of fictional neighborhood characters, most notably Shifty Sheister, the retired attorney; Dr. Cosmo Payne, surgeon; Artie Gay, the alternate lifestyle artist; and Mark Sist, a liberal thorn in the author's left side. Given the contrarian nature of many of Alman's positions, every reader will certainly find something to disagree with. But they may also find something that reinforces their own beliefs. Here's what other readers had to say: As a Canadian-born American citizen who has conducted business in both countries, I believe Tom has hit the bullseye on what makes America great. His witty description of our supply and demand-driven free enterprise system should be required reading for government policy makers. G. Denton Clark, President Ret. RCA Canada. I know just enough about national politics to know Tom Alman knows too much. He has exposed us politicians. But I am glad to see that he exposes my lawyer friends as well. I hope their sense of humor is as good as mine. Ted Hopson, Vice Mayor, Unicoi, TN, and retired GE executive. You will find Tom Alman's style both charming and informative, his impeccable logic both persuasive and challenging, and whether you agree with his conclusions or not, you will be forced to think about things you may never before have thought out. Don Helgeson, Author, Prentice Hall books on proposal writing. Tom Alman pushes the boundaries of conventional suppositions. Read him with an open mind. And if you can't, then perhaps you should examine the concrete boundaries of your own thinking. Mr. Alman is one note in the song that may become the world religion of some tomorrow: A world of tolerance, harmony, peace, and love. Lee D. Cary, Doctor of Theology and retired Methodist minister.

**The Cookie Monster** Lonnie P. Anderson, 2023-12-06 Criminal behaviors take place everyday. It is up to us to heal from them. Naturally, physical assault can lead to much depression, anxiety, and durable fiascos. Eternal joy is a promise for all who come to Jesus Christ, enlisting his assistance to fill all the holes dug in the wrong places.

The Cookie Monster is a tale about beauty arising from destruction probably the only notable work of this kind Lonnie P Anderson takes you on a journey through forgiveness and overcoming never giving up on the faith joy and hope that are ours for the taking Workmanship and steady philosophical hope takes place throughout an incandescent and provocative emblem of desire Love is a reward for those who search for and find the companionship of the Lord Jesus Belligerent denial of obstructive cantankerous situations miffs the truth of good opinion and disastrous deceit where leaning on lies sends you down to the bottom History depletes natures of soliloquy and pardonable individual complications of remorse Repercussions give grace to interludes of stress and overcoming where faith complies with nature and becomes spiritually renewed Antagonism resists our efforts to destroy evil yet we can resist those most ignoble forces of destruction patterned after lost or suicidal redemption Cookies were made for cookie monsters and cookie kings Let this elaborate epic saga grace you in learning about the baker our Father in Heaven and the cookie monster whose attributes refine and conclude with victory Baskets of cookies roam our world today See first hand what a cookie monster can do

*Understanding Accountability: New Perspectives on a Fractured World* Matthew Flinders, Gergana Dimova, Chris Monaghan, 2025-07-31 This book brings clarity and understanding to the concept of accountability through the lens of conceptual political analysis As the structure of the modern state has become more complex the architecture of accountability has itself needed to evolve and re orientate in an attempt to keep pace This has led to an increased emphasis not on accountability per se but on different kinds or types of accountability As such it is argued here that accountability has emerged to become a concept with adjectives and there is a real need to properly understand accountability in an increasingly fractured world The theoretical and analytical glue that binds all of the chapters in this collection is a commitment to working within the contours of the work of the philosopher Giovanni Sartori This is an approach that has been used to tease apart and interrogate a range of concepts including terrorism governance coups gender equality deliberation warfare clientelism hybrid regimes democracy right through to art love rape and violence It is also an approach that facilitates the cultivation of complex debates concerning the limits of conceptual flexibility The volume consists of twelve chapters grouped into three main parts The introductory part provides the foundations for the collection Part I on Power explores the normative dimensions of accountability as a means to control and regulate power Part II on Politics focuses inter

alia on accountability following a period of crisis and the emergence of new technology such as algorithms The final part Part III on Particularities looks at concepts such as social accountability and what is meant by supplementary accountability This broad ranging collection increases the conceptual toolkit that social and political scientists and lawyers can use to interrogate change at a number of levels and in a range of sectors Whether through a focus on moral individual or gendered accountability or through a shift towards clashing stakeholder or social accountability there is a clear flow and coherence through the chapters The volume will be of interest to academics and researchers working in the areas of Legal and Political Theory Legal and Political Philosophy and Accountability Studies *Congressional Record* United States.
