Botany Bay and the First Fleet Alan Frost,2019-06-04 Now in one definitive volume Botany Bay and the First Fleet is a full authentic account of the beginnings of modern Australia In 1787 a convoy of eleven ships carrying about 1400 people set out from England for Botany Bay on the east coast of New South Wales In deciding on Botany Bay British authorities hoped not only to rid Britain of its excess criminals but also to gain a key strategic outpost and take control of valuable natural resources According to the conventional account it was a shambolic affair under prepared poorly equipped and ill disciplined Here Alan Frost debunks these myths and shows that the voyage was in fact meticulously planned reflecting its importance to Britain's imperial and commercial ambitions In his examination of the ships passengers and preparation Frost reveals the hopes and schemes of those who engineered the voyage and the experiences of those who made it The culmination of thirty five years study of previously neglected archives Botany Bay and the First Fleet offers new and surprising insights into how Australia came to be

Botany Bay Mirages Frost, Alan,1990-10-31 The first dozen years of European settlement of Australia are fixed in our minds by powerful images raised from an incomplete historical record The reality was quite different Alan Frost after collecting a greatly expanded range of documents from archives around the world sets the record straight The images he challenges are immediately familiar overcrowded and unhealthy English prison hulks the colony as a cheap solution to the convict problem hasty decisions based on overly optimistic assessment of the land's fertility a poorly equipped and managed First Fleet subsequent neglect by Britain long years of deprivation and bare survival callous treatment of Aborigines and the unleashing of smallpox among them opportunistic and aberrant use of the notion of terra nullius Provocative and well argued Botany Bay Mirages contrasts the realities with the long accepted illusions It will reshape our thinking about our origins
