Morrow, 1899 This volume is written to show the life of the students in the Paris of to day It has an additional interest in opening to inspection certain phases of Bohemian life in Paris that are shared both by the students and the public but that are generally unfamiliar to visitors to that wonderful city and even to a very large part of the city s population itself It depicts the under side of such life as the students find the loose unconventional life of the humbler strugglers in literature and art with no attempt to spare its salient features its poverty and picturesqueness and its lack of adherence to generally accepted standards of morals and conduct Introduction *The Troubadours at Home* Justin Harvey Smith, 1899 *The Principles and Practice of Medical Jurisprudence* Alfred Swaine Taylor, 1873 **Death's Summer Coat** Brandy Schillace, 2016-01-15 Death is something we all confront it touches our families our homes our hearts And yet we have grown used to denying its existence treating it as an enemy to be beaten back with medical advances We are living at a unique point in human history People are living longer than ever yet the longer we live the more taboo and alien our mortality becomes Yet we and our loved ones still remain mortal People today still struggle with this fact as we have done throughout our entire history What led us to this point What drove us to sanitize death and make it foreign and unfamiliar Schillace shows how talking about death and the rituals associated with it can help provide answers It also brings us closer together conversation and community are just as important for living as for dying Some of the stories are strikingly unfamiliar others are far more familiar than you might suppose But all reveal much about the present and about ourselves **Metropolis on the Styx** David Lawrence Pike, 2007 Pike considers how underground spaces and their many myths have organized ways of seeing
