Berlusconi's Shadow

Jean Krasno, Sean LaPides

Berlusconi's Shadow:

Berlusconi's Shadow David Lane, 2004 As one of the first investigative journalists to publicly question Berlusconi's fitness for government Economist writer David Lane helped spark an uproar in Italy Now after years of research and using many unique documents and material including numerous in depth interviews with senior magistrates top lawyers and a former President he reveals the truth about Berlusconi's life and career his dubiously acquired wealth and secret offshore companies his shadowy business associates his links with noted mafia figures his extreme right wing contacts and lingering sympathy for the high days of Italian Fascism his scandalous manipulation of the legal system and the staggering conflicts of interest that enable him to exploit his money and media to silence opposition Berlusconi's Shadow is also an exploration of the dark underside of Italy today a nation still steeped in violence and corruption where bribery and backhanders are commonplace and the Mafia seems unstoppable It is a crisis which Lane shows matters now more than ever and we cannot afford to ignore

Personality, Political Leadership, and Decision Making Jean Krasno, Sean LaPides, 2015-07-07 This psychological study dissects the characteristics of 20 world leaders both men and women profiling the factors that formed their personalities and revealing how certain traits have shaped their political decisions Many wonder what it takes to be a leader Is it a natural or learned set of skills This book examines the personalities of a selected group of political leaders analyzes the forces that formed their nature most notably their leadership tendencies and then demonstrates how character has shaped important political decisions made during their regime The authors profile 20 different leaders from across five continents deriving shared personality traits and defining specific leadership styles based on characteristics and circumstances The work begins by introducing the field of political psychology and explaining the theoretical framework used in studying the leadership personalities covered in the book An analysis of leadership across the world considers several types of regimes authoritarian leaders in non democratic and democratic societies authoritarian mixed types flexible and pragmatic types and those who combine flexibility with delegation The text concludes by comparing leaders across time and location discussing interaction between specific heads of state Leaders profiled include Nelson Mandela Kofi Annan Saddam Hussein Vclav Havel Angela Merkel and Emperor Hirohito among others

Silvio Berlusconi James L. Newell, 2018-10-18 This book is about one of the most remarkable European politicians of recent decades Silvio Berlusconi and about his contribution to the dramatic changes that have overtaken Italian politics since the early 1990s From the vantage point of 2017 would Italian political history of the past twenty five years look substantially different had Berlusconi not had the high profile role in it that he did Asking the question makes it possible to contribute to a broader debate of recent years concerning the significance of leaders in post Cold War democratic politics Having considered Berlusconi's legacy in the areas of political culture voting and party politics public policy and the quality of Italian democracy the book concludes by considering the international significance of the Berlusconi phenomenon in relation to the recent election of Donald Trump

with whom Berlusconi is often compared **Silvio Berlusconi** Paul Ginsborg,2020-05-05 Silvio Berlusconi a self made man with a taste for luxurious living owner of a huge television empire and the politician who likened a German MEP to a Nazi concentration camp guard small wonder that much of democratic Europe and America has responded with considerable dismay and disdain to his governance of Italy Paul Ginsborg contemporary Italy s foremost historian explains here why we should take Berlusconi seriously His new book combines historical narrative Berlusconi s childhood in the dynamic and paternalist Milanese bourgeoisie his strict religious schooling a working life which has encompassed crooning large construction projects and the creation of a commercial television empire with careful analysis of Berlusconi s political development While highlighting the particular italianita of Berlusconi s trajectory Ginsborg also finds international tendencies such as the distorted relationship between the media system and politics Throughout Ginsborg suggests that Berlusconi has gotten as far as he has thanks to the wide open space left by the strategic weaknesses of modern left wing politics **Media and Democracy** James Curran,2011-03-31 Media and Democracy addresses key topics and themes in relation to democratic theory media and technology comparative media studies media and history and the evolution of media research Professor Curran s response to these questions provides both a clear introduction to media research written for university undergraduates studying in different countries and an innovative analysis written by one of the field s leading scholars **Resisting the Tide** Daniele Albertazzi,2009-06-24 Focussing on his term as Prime Minister from 2001 06 this scholarly volume provides the first assessment of how the neo conservative values attributed to Berlusconi were contested and resisted by a variety of groups social minority movements intellectuals radical and moderate and media practitioners This interdisciplinary volume is divided into four overlapping areas The Economic and Media Landscapes Political Challenges Texts Experiences and Personalities **Buda's Wagon** Mike Davis,2017-01-17 The brilliant and disturbing 100 year history of modern terrorism and car bombs the ubiquitous weapon of urban mass destruction On a September day in 1920 an angry Italian anarchist named Mario Buda exploded a horse drawn wagon filled with dynamite and iron scrap near New York s Wall Street killing 40 people Since Buda s prototype the car bomb has evolved into a poor man s air force a generic weapon of mass destruction that now craters cities from Bombay to Oklahoma City In this provocative history Mike Davis traces the its worldwide use and development in the process exposing the role of state intelligence agencies particularly those of the United States Israel India and Pakistan in globalizing urban terrorist techniques Davis argues that it is the incessant impact of car bombs rather than the more apocalyptic threats of nuclear or bio terrorism that is changing cities and urban lifestyles as privileged centers of power increasingly surround themselves with rings of steel against a weapon that nevertheless seems impossible to defeat Not a Normal Country Geoff Andrews,2005-07-20 I know of no book in English dedicated with such focus and depth on Berlusconi s politics Geoff Andrew s grasp of political culture is profound and reflective Gino Bedani Research Professor in Italian University of Swansea Andrews provides unusually penetrating insights Beautifully written Jim

Newell Reader in Politics University of Salford Not a Normal Country explores Italian politics and culture in the era of Silvio Berlusconi Italy's richest man and one of its longest serving prime ministers Geoff Andrews argues that the Berlusconi phenomenon was a populist response to widespread cynicism towards politics Berlusconi posed as an anti politician and based his appeal on his virtues as a salesman rather than a statesman The second part of the book discusses the varied opposition to Berlusconi This ranges from the anti global demonstrations in Genoa in 2001 to unconventional protests such as the Girotondo movement led by the film director Nanni Moretti According to Andrews this new associationism has helped rebuild Italian politics Finally Andrews looks to the future and through the examples of anti mafia protests in Sicily as well as opposition to the Americanisation of Italian culture considers the prospects for the new post Berlusconi Italy *The Literary Review*, 2004 **The Spectator**, 2004 *Italian Politics & Society*, 2004 The Tablet, 2004 The international Catholic weekly **The Sack of Rome** Alexander Stille, 2006 A profile of modern Italy as reflected in the leadership of Silvio Berlusconi traces the president's career and influence contending that his wealth power and ties to corruption have resulted in a dangerous new form of political populism **The Nation**, 2006 Political Discourse, Media and Translation Christina Schäffner, Susan Bassnett, 2010 This volume addresses the role played by translation in international political communication and news reporting and brings to light the usually invisible link between politics media and translation The contributors explore the interrelationship between media in the widest sense and translation with a focus on political texts institutional contexts and translation policies These topics are explored from a Translation Studies perspective thus bringing a new disciplinary view to the investigation of political discourse and the language of the media The first part of the volume focuses on textual analysis investigating transformations that occur in translation processes and the second part examines institutional contexts and policies and their effects on translation production and reception *Historical Dictionary of Modern Italy* Mark Gilbert, Robert K. Nilsson, 2007-09-19 Italy is a country that exercises a hold on the imagination of people all over the world Its long history has left an inexhaustible treasure chest of cultural achievement The historic cities of Rome Florence and Venice are among the most sought after destinations in the world for tourists and art lovers and Italy's natural beauty and cuisine are rightly renowned Italy's history and politics are also a source of endless fascination Modern Italy has consistently been a political laboratory for the rest of Europe In the 19th century Italian patriotism was of crucial importance in the struggle against the absolute governments reintroduced after the Congress of Vienna 1814-15 After the fall of Fascism during World War II Italy became a model of rapid economic development though its politics has never been less than contentious and its democracy has remained a troubled one The second edition of *Historical Dictionary of Modern Italy* is an attempt to introduce the key personalities events social developments and cultural achievements of Italy since the beginning of the 19th century when Italy first began to emerge as something more than a geographical entity and national feeling began to grow This is done through a chronology a list of acronyms and abbreviations an introductory essay a map a

bibliography and some 400 cross referenced dictionary entries on prominent individuals basic institutions crucial events history politics economics society and culture

Film and the Shoah in France and Italy Giacomo Lichtner,2008 Film and the Shoah in France and Italy is a uniquely comparative analysis of the role of cinema in the development of collective memories of the Shoah in these countries The work follows a chronological structure of which three French documentaries Night and Fog The Sorrow and The Pity and Shoah form the backbone These three sections are linked by comparative case studies on famous and lesser known fictional works such as Roberto Benigni s Life is Beautiful Louis Malle s Lacombe Lucien Armand Gatti s The Enclosure and Radu Mihaileanu s Train of Life The book tackles crucial themes such as the politics of history and its representation the 1970s obsession with collaboration and the ethical debate around cinema s ability adequately to represent the Shoah The book fulfils three complementary purposes to offer a detailed historical and textual analysis of key cinematic works on the Shoah to firmly situate the popular and institutional reception of these works within the political and socio cultural context of the time so as to link cinema to society s attitudes towards the Shoah and thirdly to show how these attitudes have changed over time in order to evince the role cinema has played in the transmission of history and memory Film and the Shoah in France and Italy shows that cinema has both reflected and affected the dominant perceptions of history contributing to the transition from recognition to representation of the Shoah The book also shows how this transition has been slow and uneven and questions whether recognition and commemoration necessarily imply a deeper historical understanding

Freedom for Sale John Kampfner,2009 Why is it that so many people around the world appear willing to give up freedoms in return for either security or prosperity For the past 60 years it had been assumed that capitalism was intertwined with liberal democracy that the two not just thrived together but needed each other to survive But what happens when both are undermined Governments around the world whether they fall into the authoritarian or the democratic camp have drawn up a new pact with their peoples These are its terms repression is selective confined to those who openly challenge the status quo who publicly go out of their way to cause trouble The number of people who fall into that category is actually very few The rest of the population can enjoy freedom to travel to live more or less as they wish and to make and spend their money This is the difference between public freedoms and private freedoms We choose different freedoms we are prepared to cede We all do it Freedom for Sale will set a new agenda Mixing narrative from different countries around the world it breaks new ground in revealing the extent to which the old assumptions and securities have died It will crucially ask why so many intelligent and ambitious citizens around the world particularly among the young seemed prepared to sacrifice freedom of the press and freedom of speech in their quest for wealth A new world order may well be upon us and in this gripping and devastating book John Kampfner reveals how it may just be too late to stop it
