Celebrating Everyday Life Paperback:

Crisis, Conflict and Celebration Katarzyna Kajdanek, Anna Bednarczyk, Rui Carvalho, 2025-02-03 This book illuminates how the profound challenges faced by contemporary societies over the past few decades encompassing climate change and other environmental risks global health threats warfare and mass migration manifest themselves in European cities The chapters bring cutting edge ethnographic studies which address these complex issues through three key conceptual dimensions of urban life crisis conflict and celebration The concept of crisis is critically explored in its various economic political and cultural dimensions affecting urban residents in multiple social and spatial aspects of their lives Crises often lead to conflicts dynamic processes that give rise to interest groups and complex social landscapes of resistance By examining conflicts in urban contexts the book uncovers the power dynamics and vulnerabilities emerging during turbulent times Crises and conflicts also present opportunities for urban transformation and regeneration bringing underlying beliefs and norms into question paving the way for new social dynamics within urban environments These conflictual spaces can therefore become arenas for celebration of urbanity where communities express resilience cultural identity and collective solidarity As well as providing new insights into the present and future of European cities and the pivotal role of urban areas as centers of social change contestation and community building the book provides an important methodological contribution through innovative qualitative research in a diverse range of European urban areas

Daytime Television Game Shows and the Celebration of Merchandise Morris B. Holbrook, 1993 Insights into the nature of the consumer society and its ethos of consumption can often emerge from interpreting even the most lowly specimens of popular culture In this spirit a neglected genre that promises to shed light on the culture of consumption appears in the form of the daytime television game shows whose hegemonic message seems to convey and to justify a widespread obeisance to the mandate of materialism These game shows often present a text that demands a readerly monosemic dominant interpretation as an unabashed celebration of merchandise In particular a close analysis of the longest running game show The Price Is Right suggests that all facets of this program combine to reinforce its central meaning as a ritualistic validation of consumption oriented greed An alternative resistant reading is explored but rejected in part because it rests on an assumption that violates the empirical data and in part because it provides a more convincing analysis of a program like Supermarket Sweep In short the present study concludes that TV game shows in general and The Price Is Right in particular reflect and reinforce the obsession that many modern consumers feel with merchandise valued almost for its own sake beyond any need or even capacity to use it as a kind of disembodied target of misdirected desire
