## **Conditions Of Diversity In Multinational Democracies:**

**The Conditions of Diversity in Multinational Democracies** Institute for Research on Public Policy, 2003 The Conditions of Diversity in Multinational Democracies studies the many dimensions of diversity in multinational settings The contributions from leading experts from Spain the United Kingdom Germany and Canada consider the theoretical institutional and legal conditions for the development of nations that exist within the boundaries of larger political institutions They examine how various political regimes manage multiple demands for recognition and how their respective approaches toward diversity affect the stability of the state Contributors include Alain G Gagnon Montserrat Guibernau Michael Keating Peter A Kraus Andr Lecours John Loughlin Roderick A Macdonald Jocelyn Maclure David McCrone Kenneth McRoberts Luis Moreno Fran ois Rocher Michel Seymour Stephen Tierney and Nadia Verrelli **Managing Diversity** Linda Cardinal, Nicholas Brown, 2007-10-15 Australia Canada and Ireland are all engaged in questions of multiculturalism and in the politics of recognition and reconciliation the opportunities and pressures of geographic regionalism shifts in political agendas associated with the impact of neo liberalism and moves to frame political agendas less at the macro level of state intervention and more at the level of community partnership and empowerment In related but distinct ways each state is being challenged to devise policies and offer outcomes that address an unfolding and unsteady synthesis of issues relating to citizenship the role of nation states in a borderless world and the management of economic change while preserving an enabling sense of national identity and social cohesion Analyzing issues ranging from urban planning and the provision of broadcasting services for minority languages to principled debates over basic rights and entitlements these essays offer penetrating summaries of each political culture while also prompting comparative reflection on the broad theme of democracy and difference Analyzing issues ranging from urban planning and the provision of broadcasting services for minority languages to principled debates over basic rights and entitlements these essays offer penetrating summaries of the political cultures of Australia Canada and Ireland Published in English Federalism and National Diversity in the 21st Century Alain-G. Gagnon, Arjun Tremblay, 2020-03-21 This edited volume explores the obstacles to and opportunities for the development and entrenchment of a sustainable and representative multinational federalism In doing so it tackles a striking puzzle on the one hand scholars agree that deeply diverse multinational and multiethnic democracies should adopt federal structures that reflect and empower territorially concentrated diversity On the other hand there are very few if any real examples of enshrined and fully operative substantive multinational federalism What are the main roadblocks to the adoption of multinational federalism Can they be overcome Is there a roadmap to realizing multinational federalism in the twenty first century In addressing these questions this book brings together scholars from across the globe who explore a diverse range of cases from different and innovative analytical approaches The chapters contribute to answering the above questions each in their own way while also addressing other important aspects of multinational federalism The book concludes that the way

forward likely depends on the emergence of a specific set of norms and a receptiveness to the complex institutional design

*Taking Pluralism Seriously* Félix Mathieu, 2022-06-15 In so called post factual societies where public debates are undermined by their false or misleading premises philosophers who have reflected on diversity and pluralism can offer a critical and clarifying perspective through which to evaluate the statements of politicians and the media Félix Mathieu offers a theoretical empirical and normative analysis of the debates surrounding the accommodation of ethnocultural and societal diversity in contemporary liberal democracies With a close lens on Canada he looks at case studies in the United Kingdom and the Netherlands to test political leaders and analysts claims of successful accommodation and pluralism *Taking Pluralism Seriously* provides a clear fair and helpful summary of the debate so far in order to understand the promises and pitfalls associated with theories of multiculturalism interculturalism federalism and multinational democracy investigating the conditions that might make it possible for different national communities to become fully empowered politically and culturally *Taking Pluralism Seriously* invites readers to explore questions of pluralism and accommodation and proposes political reforms to meet the challenges arising from diversity while considering some of the most pressing concerns complex societies are facing today

*Basque Nationalism and the Spanish State* André Lecours, 2007-07-13 An examination of Basque nationalism from a historical perspective Basque nationalism has been extensively examined from the perspectives of Basque culture and internal conditions in the Basque Country but André Lecours is among the first to demonstrate how Basque nationalism was shaped by the many forms and historical phases of the Spanish state His discussion employs one of the most debated approaches in the social sciences historical institutionalism and it includes an up to date examination of the circumstances for and consequences of recent events such as ETA s announcement in 2006 of a permanent cease fire Lecours also analyzes other aspects of Basque nationalism including the international relations of the Basque Autonomous Government as well as the responses of the contemporary Spanish state and how it deploys its own brand of nationalism Finally the book offers a comparative discussion of Basque Catalan Scottish Flemish and Quebecois nationalist movements suggesting that nationalism in the Basque Country despite the historical presence of violence is in many ways similar to nationalism in other industrialized democracies *Basque Nationalism and the Spanish State* is an original and provocative discussion that is essential reading for anyone interested in the Basques or in the development of modern nationalist movements

**Symposium**, 2006 *Unequal Relations* Augie Fleras, Jean Leonard Elliott, 2006 *Contemporary Canadian Federalism*

Alain-G. Gagnon, 2009-06-06 The papers in this collection offer reflections on Canadian federalism by leading Quebecois scholars *Canadian Studies in Britain 1970-2010* Tim Rooth, 2007 *The Democratic Dilemma* Jennifer Smith, 2009 In 2006 Prime Minister Stephen Harper s Conservative government introduced two bills to reform the Senate one to establish limited terms for senators replacing the existing system of appointment until age 75 and the other to establish consultative

elections for the Senate with the prime minister nominating the winners of the election Both bills have been heard in the House of Commons and the Senate but neither bill has been enacted into law The government's initiatives are proving controversial for two reasons One is the contents of the bills The other is procedural and concerns the federal government's strategy of treating Senate reform as a matter for Parliament alone to determine a matter of federal legislation rather than an amendment of the constitution Contributors examine all angles of the debate on Senate reform They address the constitutionality of the proposals and bring to light features of the bills that have not yet been analyzed assessing their significance for the conduct of a reformed chamber They consider whether the objectives of the reformers are likely to be met by these proposals or whether the result will have unintended consequences They demonstrate how complicated Senate reform is full of unexpected twists and turns and show that successful reform requires a deep understanding of the country's parliamentary system and culture and a delicate approach to institutional change Contributors include Jane Ajzenstat McMaster University Peter Aucoin Dalhousie University Louise Carbert Dalhousie University Don Desserud University of New Brunswick in Saint John Andrew Heard Simon Fraser University Tom Kent Institute for Research on Public Policy and Queen's University Stephen Michael MacLean independent scholar Lorna Marsden York University Vincent Pouliot lawyer and entrepreneur Quebec Hugh Segal Senate of Canada David Smith University of Regina Nadia Verrelli Queen's University Ron Watts Queen's University and John Whyte University of Saskatchewan *Québec* Alain Gagnon, 2004 This completely revised edition is composed of twenty two original and comprehensive essays on key issues and themes that constitute present day Quebec politics written by prominent and widely published specialists *Bulletin - Société Québécoise de Science Politique*, 2003 *Human Affairs*, 2003 **Canadian Parties in Transition** Alain Gagnon, Brian Tanguay, 2007 Alain Gagnon and A Brian Tanguay present a multi faceted image of party dynamics electoral behaviour political marketing and representative democracy with chapters written by an outstanding team of political scientists **Politics in North America** Yasmeen Abu-Laban, Francois Rocher, Radha Jhappan, 2008 In *Politics in North America* Redefining Continental Relations prominent authors from Canada the United States and Mexico explore the politics of redefining the institutional economic geographic and cultural boundaries of North America **Canada from the Outside in** Pierre Anctil, Zilá Bernd, 2006 In this collection specialists examine often through a comparative filter themes related to migrant literatures cultural diversity and aspects of Canadian state policy The results of this examination offer an overview of Canadian society which as most contemporary societies must address various issues **Canadian Who's Who 2009** Elizabeth Lumley, 2008-12-04 Now in its ninety ninth year of publication this standard Canadian reference source contains the most comprehensive and authoritative biographical information on notable living Canadians Those listed are carefully selected because of the positions they hold in Canadian society or because of the contribution they have made to life in Canada The volume is updated annually to ensure accuracy and 600 new entries are added each year to keep current with developing
