*Jumping the Curve* Nicholas Imparato, Oren Harari, 1996 Foreword by Tom Peters Internationally known management consultants Nicholas Imparato and Oren Harari connect the big picture of our changing civilizations with the specific practical actions that managers have to take to produce results today All organizations are faced with the same challenge the need to jump the curve to make significant discontinuous leaps in their thinking whether about product technology or management style The alternative to follow current practices all the way to their inevitable decline is unacceptable The authors show us that it is also unnecessary Drawing on numerous personal interviews with innovative leaders around the world as well as research and first hand observation Imparato and Harari identify the four strategic imperatives innovation

intelligence coherence and responsibility that will enable companies to successfully jump the curve and thrive in the emerging epoch And they show how cutting edge companies and leaders are translating these imperatives into action Not since the dawn of the Modern Age some five hundred years ago has civilization undergone the kind of profound rapid fire changes we re experiencing today Even organizations that are adapting growing and innovating have the gnawing sense that obsolescence is right around the corner Jumping the Curve offers perspective and guidance for doing business at this unique moment in time It connects the big picture of our changing world with the practical actions managers must take now to position their organizations for success in a new epoch we can t yet fully see or understand *Field and Stream* ,1999

Stuart,2007-10-17 Recent events may have strained and perhaps even blunted this historical evolution Stuart notes Since 9 11 Washington has focused upon security and Ottawa reluctantly has met that concern in order to sustain the open transit of people and goods upon which Canada so relies As the Western Hemisphere Travel Initiative has shown however border management also has become increasingly costly and complex This may lead to political continentalism that interaction in other realms failed to produce more likely though the two peoples and their governments will merely adapt to changing circumstances BOOK JACKET
