**Defending Diversity** Patricia Gurin, Jeffrey S. Lehman, Earl Lewis, Eric L. Dey, Sylvia Hurtado, Gerald Gurin, 2010-04-23 Even as lawsuits challenging its admissions policies made their way through the courts the University of Michigan carried the torch for affirmative action in higher education In June 2003 the Supreme Court vindicated UM's position on affirmative action when it ruled that race may be used as a factor for universities in their admissions programs thus confirming what the UM had argued all along diversity in the classroom translates to a beneficial and wide ranging social value With the green light given to the law school's admissions policies *Defending Diversity* validates the positive benefits gained by students in a diverse educational setting Written by prominent University of Michigan faculty *Defending Diversity* is a timely response to the court's ruling Providing factual background historical setting and the psychosocial implications of affirmative action the book illuminates the many benefits of a diverse higher educational setting including preparing students to be full participants in a pluralistic democracy and demonstrates why affirmative action is necessary to achieve that diversity *Defending Diversity* is a significant contribution to the ongoing discussion on affirmative action in higher education Perhaps more important it is a valuable record of the history events arguments and issues surrounding the original lawsuits and the Supreme Court's subsequent ruling and helps reclaim the debate from those forces opposed to affirmative action Patricia Gurin is Professor Emerita Department of Psychology University of Michigan Jeffrey S Lehman former Dean of the University of Michigan Law School is President of Cornell University Earl Lewis is Dean of Rackham Graduate School University of Michigan *Cultural Diversity, Ideology, and Social Control in Higher Education* David Joseph Perusek, 2002 [Defending Politics](#) Iain Hampsher-Monk, Anthony Arblaster, 1993-12-31 This collection of essays in honour of political scientist Bernard Crick follows his celebrated book *In Defence of Politics* and takes up many of the themes he addressed in it including politics and freedom pluralism and political action tolerance socialist commitment and democratic freedom the protection of individual rights community politics political education and market order The topicality of this book is clear especially as Britain and the European Community set their political agendas for the rest of the century and as the Labour Party and Liberal Democratic Party seek to redefine their current and future political roles following the 1992 general election *Elements of Argument with 2021 MLA Update* Annette T.
