Democratic Governance James G. March, Johan P. Olsen, 1995 Going beyond democratic theory March and Olsen draw on social science to examine how political institutions create and sustain democratic solidarity identities capabilities accounts and adaptiveness how they can maintain and elaborate democratic values and beliefs and how governance might be made honorable just and effective They show how democratic governance is both proactive and reactive creating interests and power as well as responding to them and how it shapes not only an understanding of the past and an ability to learn from it but even history itself By exploring how governance transcends the creation of coalitions that reflect existing preferences resources rights and rules the authors reveal how it includes the actual formation of these defining principles of social and political life

Democratic Governance Mark Bevir, 2010-04-26 Democratic Governance examines the changing nature of the modern state and reveals the dangers these changes pose to democracy Mark Bevir shows how new ideas about governance have gradually displaced old style notions of government in Britain and around the world Policymakers cling to outdated concepts of representative government while at the same time placing ever more faith in expertise markets and networks Democracy exhibits blurred lines of accountability and declining legitimacy Bevir explores how new theories of governance undermined traditional government in the twentieth century Politicians responded by erecting great bureaucracies increasingly relying on policy expertise and abstract notions of citizenship and more recently on networks of quasi governmental and private organizations to deliver services using market oriented techniques Today the state is an unwieldy edifice of nineteenth century government buttressed by a sprawling substructure devoted to the very different idea of governance and democracy has suffered In Democratic Governance Bevir takes a comprehensive look at governance and the history and thinking behind it He provides in depth case studies of constitutional reform judicial reform joined up government and police reform He argues that the best hope for democratic renewal lies in more interpretive styles of expertise dialogic forms of policymaking and more diverse avenues for public participation

Democratic Governance Séverine Bellina, Hervé Magro, Violaine de Villemeur, France. Ministère des affaires étrangères et européennes, 2009 Governance has become a key word in the lexicon of international relations over the last twenty years It is used loosely and invariably in a liberal idiom by scholars activists civil society organizations politicians and the voluntary sector In many respects it has attained the status of a fetish yet governance remains a notion that has multiple definitions a concept in the making Notwithstanding the imprecision with which the term is employed it has become an inescapable paradigm for the politics of development The contributors to this book drawn from among some of the world s best area studies specialists from North and South offer a diverse global critique of governance as deployed in several key areas institutions and state actors the rule of law democracy and human rights decentralization and state power development and last but not least international cooperation and the role of the World Bank the IMF and NGOs The geographical spread of the volume ranges from Africa to Latin America from Asia to the Middle East Their objectives include a reassessment of

governance in its many manifestations an attempt to free the term from its often unhelpful linkage to the state and thereby apply it to other organizations and actors a re evaluation of the Western dominated use of the term politically and an attempt to broaden its application beyond issues such as transparency and the fight against corruption and a search for innovative applications of the term driven by a consensus that transcends current economic and political inequalities

Constructing Democratic Governance Jorge I. Domínguez, Abraham F. Lowenthal, 1996-10 In *Constructing Democratic Governance* Jorge I. Domínguez and Abraham F. Lowenthal bring together a distinguished group of scholars to assess how well democracy has been working in this volatile part of the world. The authors find that serious problems still plague these new democracies. Many of these problems are related to the political institutions including political parties, the civil service, and the justice system. Part I introduces broad thematic surveys of such key issues as the role of the left, conservatism, inequality, and indigenous peoples. Part II reviews the South American nations. Part III focuses on Mexico, Central America, and the Caribbean, including Cuba. In Part IV, the volume editors draw conclusions about the problems and prospects for stable democracies in Latin America. In addition to the complete hardcover edition, *Constructing Democratic Governance* is available in three paperback volumes, each containing the introduction and conclusion from the complete edition and organized for convenient course use. *Public Administration and Democratic Governance* United Nations, Division for Public Administration and Development Management, 2007. Strengthening trust, accountability, and participation in government are essential to serving the needs of citizens. This volume brings together concepts and ideas from around the world on how to achieve more responsive and accountable public administration within the framework of democratic governance. The publication is one of the analytical products emerging from the Global Forum on Reinventing Government. **Promoting Security Sector Governance in the EU's Neighbourhood** Heiner Hänggi, Fred Tanner, 2005. With the European Union's 2004 round of enlargement, its neighbourhood now stretches from the Balkans to the Southern Caucasus and from Russia to the Southern Mediterranean. This new neighbourhood suffers from serious deficits in terms of security, development, and democracy, which constitute a serious challenge for the EU's own security. It is clear, however, that no genuine political and economic modernisation can be carried out as long as defence and security sectors remain unaccountable to civilian authorities, lack transparency, and waste valuable national resources. This Chailot Paper examines to what extent the EU is able to address the question of security sector reform and governance with its neighbours. Although increasingly engaged in the promotion of security sector governance, the EU has neither developed a comprehensive policy framework nor mainstreamed its manifold activities aimed at promoting security sector governance. Moreover, it pursues the reform of security institutions such as police forces, border guards, or judicial systems on a piecemeal basis, shying away from involving itself in defence-related aspects of security sector governance, even though ESDP operations are increasingly dealing with post-conflict situations that require the reform and reintegration of military forces. The main policy recommendation advanced by this Chailot Paper is that the EU should develop a holistic approach to promoting security sector governance in its neighbourhood.

Decentralization, Democratic Governance, and Civil Society in Comparative Perspective Philip Oxhorn, Joseph S. Tulchin, Andrew Selee, 2004-05-19 This volume studies the relation of decentralization to democratization at both intermediate and local levels and analyzes how decentralization is transforming the relationship between the state and civil society

Challenges of Security Sector Governance Heiner Hänggi, Theodor Winkler, 2003 The war in Iraq in spring 2003 was a further indication of the resecuritization of international relations triggered by the terrorist attacks of September 11 2001 However the new or renewed primacy of security will be of a rather different nature as compared to the Cold War period The underlying assumption of the essays in this volume is that security issues will increasingly be approached from a governance perspective and that in this context the internal dimension of security governance security sector governance is an issue whose rapidly growing importance has not yet been duly recognized Heiner Hnggi is assistant director of the Geneva Centre for the Democratic Control of Armed Forces Theodor H Winkler is director of the Geneva Centre for the Democratic Control of Armed Forces
