People, and the Government Renu Khator,1989 The welfare role of the state has allowed the bureaucracy to venture into
new areas of regulation and consequently to assume a leviathanian role in the modern society But what is the cost of this
bureaucratic intervention Is regulation cost effective to the society With these questions as the bases of analysis this book
examines the outcome of the forest policy process in India An analysis of the forest policy indicates that the realization of the
deforestation problem occurred as early as in the 1860s since then the government has been relying on the regulatory
capabilities of the bureaucracy to control the sources of deforestation Regulations it is argued are necessary to restrict the
destructive use of forests by the people especially the forest dwellers Contrary to this argument environmentalists blame the
corrupt and selfish behaviour of bureaucrats for the damage done to the forests Despite of an extensive legal network nation
continues to lose more than one million hectares of forests each year This book provides an statistical analysis of the causes
of deforestation in India states After assessing the influence of several independent variables political economic bureaucratic
and demographic on deforestation the study concludes that the bureaucracy indeed has failed in its regulatory role
