Hurme,1974 *Glossary of Ecological Terms* University of Idaho. College of Forestry, Wildlife, and Range Sciences,1976
Environmental Glossary Wayne O. Deason,1986 **Environmental Impact Statement Glossary** Marc
Landy,1979-11 This reference book sets out to provide a useful glossary to writers reviewers and citizens interested in the
EIS process Over the last decade environmental impact statements have developed a rich but sometimes confusing
vocabulary The purpose of this book is to help people understand and communicate more effectively by presenting analyzing
and comparing terminology used by various EIS organizations This book is not a technical glossary or the standard glossary
but rather the first complete effort to assemble and examine the translation of complex technical EIS language into a
vocabulary aimed directly at the lay reader Two major factors are responsible for the confusion over EIS terminology the
diversity of professional vocabularies and multiple interpretations of federal regulations Due to the diversity and breadth of
professional jargons needed to describe the wide range of EIS subject matter both quantitatively and qualitatively EIS
terminology has become a complex amalgam of professional languages The second factor of multiple interpretations of
federal regulations contributes to the confusion over EIS procedural terminology providing a disjointed vocabulary charged
with individual interpretation As a result of this complexity and confusion the need for a uniform or standard terminology has
been advocated by many organizations ranging from the Council on Environmental Quality on the federal level down to city
planning departments on the local level *A Glossary of Ecological Terms* Palmerston North Teachers College. Library,1980
A Glossary of Geographical Terms British Association for the Advancement of Science. Research Committee,1961
Glossary of Environment Statistics United Nations. Statistical Division,1997 The Glossary is a tool of quick reference
for terms definitions relevant to environmental data production This first attempt incorporates 1200 terms includes key
terms of environmental management sustainable development It will be extremely useful as a reference tool in courses on
environmental statistics environmental economics in research institutes working on the assessment of the state of the
environment policy analysis of sustainable development **Energy and Environmental Terms** ,1988 *Dictionary*
