Hughes, 2007-04-26 Albert Camus is one of the iconic figures of twentieth century French literature one of France's most widely read modern literary authors and one of the youngest winners of the Nobel Prize for Literature As the author of *L'Étranger* and the architect of the notion of the Absurd in the 1940s he shot to prominence in France and beyond His work nevertheless attracted hostility as well as acclaim and he was increasingly drawn into bitter political controversies especially the issue of France's place and role in the country of his birth Algeria Most recently postcolonial studies have identified in his writings a set of preoccupations ripe for revisitation Situating Camus in his cultural and historical context this 2007 Companion explores his best selling novels his ambiguous engagement with philosophy his theatre his increasingly high profile work as a journalist and his reflection on ethical and political questions that continue to concern readers today

*Decolonizing Emotions in French Algeria* Christiane-Marie Abu Sarah, 2024-08-22 Alongside the diplomatic struggles of the early Cold War European politicians worked to shape emotions about the postwar order advocating fear of communism and hope for postwar recovery In this context the French Empire in North Africa emerged as one important emotional battleground where Algerian nationalists and anti colonial campaigners challenged French narratives about imperial pride and native hysteria During the Algerian War 1954-1962 emotions thus became a pivotal part of the independence struggle Accordingly *Decolonizing Emotions* tracks affective politics during the revolution focusing on members of the Front de libération nationale FLN Combattants de la libération CDL and Jeune Résistance Delving into the manifestos poetry and personal diaries of anti colonial activists the book reveals a rich world of transgressive sentiments emotional exile and affective border crossings The stories that surface show how Algerians used biopower to combat an affective regime that refused native populations the right to be angry The book further chronicles how Europeans complicated ideas of humanitarian pity and confronted the French production of political apathy It is a history that holds modern relevance speaking to contemporary

of the Black Lives Matter movement The sites and history represented in this volume address a range of issues including mass displacement genocide political repression forced disappearances massacres and slavery Across the world there are preserved historic sites memorials and museums that mark places of significant violence and human rights abuse which organizations and activists have specifically worked to preserve and provide a place to face history and its continuing legacy today and chapters across this volume directly engage with the questions and issues that surround these sometimes controversial sites Including photographs of many of the sites and events covered across the volume this is an important book for readers interested in the complex and often difficult history of the relationship between violence and the way it is publicly remembered
