Yang, 2007 The X Files and Literature Unweaving the Story Unraveling the Lie to find the Truth provides an innovative and valuable exploration of the groundbreaking television program Although much academic work has been devoted to the social psychological and spiritual significance of The X Files until this collection none has fully addressed the series TM rich adaptation of literature to interrogate our perception definition or recounting of the oetruth This collection not only unveils new twists and insights into expected connections between The X Files and Gothic writers or with its modernist and post modernist slants on narrative plot and characterization The X Files and Literature also delves into some unexpected literary sources shaping the series such as the Arthurian quest Catholic and Biblical mythology folkloristics and James Fennimore Cooper and the oevanishing American mythos This collection of essays covers both how The X Files works with literature TM's own constantly morphing definition and portrayal of truth through form and content as well as how the television program may or may not subvert our own contradictory expectations and distrust of literature TM's providing us with enlightenment As television becomes more and more literary with shows like Lost and Gilmore Girls sending us off to the bookstore and the library so we might read them more carefully a book like The X Files and Literature is welcome indeed Sharon R Yang TM's diverse collection on one of Nineties TM TV TM's richest texts finds the truth of the gothic and the Arthurian and the folkloric of the postmodern and the metafictional of Poe Pynchon Cooper Nabokov and Tennyson not just oeout there but in the perhaps too complicated narrative of the perpetually frustrated quests of Mulder and Scully Valuable

in itself as an intellectual exercise its real worth may come when we put the book down and return smarter better readers to the primary text David Lavery Co Editor Deny All Knowledge Investigating The X Files Sharon Yang s X Files collection deals with an important subject addressed by thoughtful writers The idea that television can be seen as a branch of literature is certainly sustained by The X Files and the contributors to this volume succeed in making the case Brian Hauser on Fenimore Cooper Cary Jones on Mary Shelley Tamy Burnett on Poe Thomas Argiro on Pynchon Matthew VanWinkle on Tennyson these and more explore the connections with The X Files not only in terms of sources but also themes and techniques Both students of television and literature will want to own this book Rhonda V Wilcox Ph D Professor of English Gordon College Barnesville
