The New Royal Family - Prince George, William and Kate: The Next Generation Robert Jobson, 2014-08-07 WITH EXCLUSIVE PICTURES BY ARTHUR EDWARDS MBE With the world watching Prince George Alexander Louis of Cambridge third in the line of succession to the throne was born on 22 July 2013 The next day his proud parents stepped out of St Mary's Hospital London to present their baby to the excited crowds From the beginning the world had watched with bated breath as the charming prince and his future bride overcame the struggles of university rumours and a brief breakup before finally reconciling and becoming engaged The royal wedding in 2011 watched by an incredible estimated 2 billion people worldwide was a defining moment not only in their young lives but also for the perception of the monarchy When the Palace announced the Duchess's much anticipated pregnancy in 2012 a public frenzy surrounded the arrival of the heir to the throne Now that the Duke has left the military to focus on his royal duties and charity work there is already speculation as to whether George will follow in his father's footsteps with a passion for wildlife and conservation As well as a history of the young couple's romantic relationship this in depth book chronicles the next chapter of this modern day fairytale and is packed with beautiful photographs fascinating facts and expert analysis An intriguing insight and unrivalled souvenir this is an essential read for royalists and romantics alike

The Future Royal Family Robert Jobson, 2014-06-25 They have been dubbed the modern royals by the world's media and have not only won the hearts and the loyalty of millions of people around the world but have helped to re-establish the British royal family as an important and largely admired presence in national and international affairs In short Their Royal Highnesses the Duke and Duchess of Cambridge also known simply as William and Kate have done as much as anyone to bring the royal family into the twenty first century and to keep it firmly in the national consciousness The birth of Prince George their first child on 22 July 2013 fuelled such a worldwide media and public frenzy that it became the most talked about event of the year The birth of a future heir combined with the historic possibility of the first baby to be born not only to a Queen in waiting but to the son of the much mourned Diana Princess of Wales accounted for much of the excitement but that was stoked by a natural affection for the young couple From the beginning the world had watched with bated breath as the charming Prince William and his future bride overcame the struggles of university rumours and a brief break up before finally reconciling and becoming engaged Their ceremonial wedding in 2011 watched by an incredible estimated 2 billion people worldwide was a defining moment not only in their young lives but also for the perception of the monarchy The Duke and Duchess of Cambridge have come to embody the spirit and hope of their nation and their deserved popularity has had a profound effect upon the future of the royal family As well as a history of the young couple's romantic relationship this in depth book chronicles the next chapters in this modern fairy tale backed by beautiful photographs fascinating facts and expert analysis Now completely revised and updated to cover the period from the birth of Prince George to the arrival of the new prince or princess in April 2015 the book is both an intriguing insight into modern
