

A man in a yellow martial arts uniform is captured in a dynamic, low-to-the-ground combat stance. He is positioned in the center of the frame, with his arms extended forward and hands in a fist-like position. The background features a traditional Chinese building with a tiled roof on the left, a paved path leading into the distance, and a range of green, forested mountains under a blue sky with light clouds. The overall scene is bright and clear, suggesting a sunny day.

The Shaolin Butterfly Al Case,2015-05-02 This is the training manual for the original Monster Martial Art course The Shaolin Butterfly is taken from Fut Ga Kung Fu which many consider to be the original Kung fu of the Shaolin temple The system has been matrixed which means it has been made logical Matrixing is the first and only science of the martial arts which means the forms and techniques have been arranged in logical format with all the fluff and repetition taken out No more meandering through dozens of forms searching for the meaning of it all Instead the forms have been arranged so the concepts are easy to understand and easy to do The real blessing is that this has made Kung Fu into a combat ready art No searching through a catalogue of hundreds of techniques many of which have been designed for specific weapons or body armor or different periods of time Now the art becomes simple to learn and therefore easy to use Everything simply everything has a point and intuition comes quickly The author has nearly 50 years of experience in the martial arts He was a writer for the magazines through the golden age of the martial arts and therefore was able to tap into a wealth of martial arts Further he has over 600 pages of testimonials praising the Matrixing method Guaranteed once a student has experienced the intuitive science of matrixing his whole art will be transformed as well as his method and ability to learn Nowhere is this more true than in The Shaolin Butterfly one of the original Matrixing courses There is a video portion to this course which will be available separately
