Color Relationships

- Complementary:** Using two colors directly opposite each other on the color wheel. Complementary colors are used to create a strong contrast and visual interest.
- Split-Complementary:** Using two colors adjacent to the complement of a base color. This provides a strong contrast while being more harmonious than a straight complementary pair.
- Tertiary:** Using two colors adjacent to each other. Tertiary colors are used to create a harmonious and balanced color palette.

How to use the Color Wheel

Use the color wheel to select a color for your design. The wheel is divided into 12 color sectors, each with three sub-sectors. The colors are arranged in a clockwise direction starting from the top: Yellow, Green, Blue, Purple, Red, and Orange. Each sector is labeled with its name in both uppercase and lowercase letters.
