

USING A CONDOM?

- Always make sure there is mutual consent.
- Always use a new condom each time you have penetrative sex.

(1)

Push the condom to one side before opening the packet. Gently tear the corner and remove the condom. Take care when opening condom packets as the use of your fingers, teeth, and fingernails may cause damage to the condom.

(2)

Condoms should be placed on the erect penis before any contact with the sexual partner's genitals. Squeeze the air out of the tip with your thumb and finger — an air bubble in the tip can cause bursting or breakage during ejaculation. Roll the condom all the way to the base of the penis.

(3)
Apply water-based lubricant freely to the condom before and during intercourse to help prevent breakages and increase comfort.

(4)
Withdraw the penis immediately after ejaculation, holding the condom at the base of the penis before it becomes soft. Remove the condom. Be careful not to allow the condom or the penis to touch the sexual partner's genitals or anus.

(5)
Dispose of the condom in a rubbish bin. Don't flush it down the toilet!
