Of Hope:

The Precious Pearl of Hope in the Mercy of God ,1878 *Architectures of Hope* Moisés Kopper,2022-11-17
Architectures of Hope examines how communal idealism electoral politics and low income consumer markets made first time homeownership a reality for millions of low income Brazilians over the last ten years Drawing on a five year long ethnography among city planners architects street level bureaucrats politicians market and bank representatives community leaders and past present and future beneficiaries Moisés Kopper tells the story of how a group of grassroots housing activists rose from oblivion to build a model community He explores the strategies set forth by housing activists as they waited and hoped for and eventually secured homeownership through Minha Casa Minha Vida's public private infrastructure By showing how these efforts coalesced in Porto Alegre Brazil's once progressive hotspot he interrogates the value systems and novel arrangements of power and market that underlie the country's post neoliberal project of modern and inclusive development By chronicling the making and remaking of material hope in the aftermath of Minha Casa Minha Vida Architectures of Hope reopens the future as a powerful venue for ethnographic inquiry and urban development *The Motif of Hope in African American Preaching during Slavery and the Post-Civil War Era* Wayne E. Croft Sr.,2017-10-16 The Motif of Hope in African American Preaching during Slavery and the Post Civil War Era There's a Bright Side Somewhere explores the use of the motif of hope within African American preaching during slavery 1803 1865 and the post Civil War era 1865 1896 It discusses the presentation of the motif of hope in African American preaching from an historical perspective and how this motif changed while in some instances remained the same with the changing of its historical context Furthermore this discussion illuminates a reality that hope has been a theme of importance throughout the history of African American preaching
