

"The Nazi's entered this war on the rather childish delusion that they were going to bomb everybody and nobody was going to bomb them."

Bomber Harris:

Bomber Harris Dudley Saward,1985 [Bomber Harris: His Life and Times](#) Henry Probert,2016-08-05 This is the definitive biography of one of the most controversial figures of the Second World War Sir Arthur Harris remains the target of criticism and vilification by many while others believe that the contribution he and his men made to the Allied victory is grossly undervalued Harris has been condemned in particular for his Area Bombing tactics which saw civilians and their homes become legitimate targets along with industrial and military installations This is explored by the author and placed fully within its context and just as importantly within the instructions he received from Churchill s administration Henry Probert s critical but highly sympathetic account draws on wide ranging research and for the first time all of Harris own papers to give an outstanding insight into a man who combined leadership professionalism and decisiveness with kindness humour and generosity

Bomber Harris John Grehan,Martin Mace,2014-04-22 The bombing campaign conducted against Germany and German occupied Europe in the Second World War was and remains one of the most controversial operations of the entire war Much of Bomber Command s effort was what was defined as area bombing in which whole cities or districts were targeted The ultimate aim of an attack on a town area Sir Arthur Harris wrote in one of his despatches is to break the morale of the population which occupies it namely to produce i destruction and ii fear of death This strategy was so successful it almost brought Germany to the point of collapse until Churchill worried about the devastation it was causing and the number of civilian deaths which resulted ordered it to cease Harris despatches explain in great detail the success of his methods which if given full reign may have brought the war to a speedier conclusion but would have meant even more German casualties Such was the controversy surrounding Bomber Command s operations Harris despatches were not published by the government even though the despatches of every other branch of the armed services and all of their operations were made public The full text of Harris despatches is reproduced here along with an explanation why these documents were withheld for so many years

[Bomber Harris](#) Henry Probert,2006 This is the definitive biography of one of the most controversial figures of World War II Sir Arthur Harris remains the target of criticism and vilification by many while others believe the contribution he and his men made to victory is grossly undervalued Henry Probert s critical but sympathetic new account draws on recent research and for this first time all of Harris s own extensive papers to give outstanding insight into a man who combined leadership professionalism and decisiveness with kindness humor and generosity Bomber Harris provides the most complete picture of one of the great commanders of modern times and an outstanding military personality of World War II Air Commodore Probert was formerly Head of the Air Historical Branch Correlli Barnett is a world renowned historian whose books have been translated into many languages

Bomber Harris Air Commodore Henry Probert,2006-03-17 This is the definitive biography of one of the most controversial figures of World War II Sir Arthur Harris remains the target of criticism and vilification by many while others believe the contribution he and

his men made to victory is grossly undervalued Henry Probert's critical but sympathetic new account draws on recent research and for this first time all of Harris's own extensive papers to give outstanding insight into a man who combined leadership professionalism and decisiveness with kindness humour and generosity Probert examines Harris's life from youth in Rhodesia to fighting in World War I the inter war years his two families and his post war years in South Africa and England He reveals and analyses how Harris did his job in RAF Bomber Command during World War II his leadership of his men in the face of appalling casualties his disagreements with higher authority his dealings with Churchill his close links with the Americans his role in directing the bombing raids against Germany most notably at Dresden and the way he was treated afterwards Bomber Harris provides the most complete and rounded picture of one of the great high commanders of modern times and an outstanding military personality of World War II

Bomber Harris Sir Arthur Travers Harris, John Grehan, Martin Mace, 2014 The bombing campaign conducted against Germany and German occupied Europe in the Second World War was and remains one of the most controversial operations of the entire war Much of Bomber Command's effort was what was defined as area bombing in which whole cities or districts were targeted This strategy was so successful it almost brought Germany to the point of collapse until Churchill worried about the devastation it was causing and the number of Arthur Harris despatches explain in great detail the success of his methods which if given full reign may have brought the war to a speedier conclusion but would have meant even more German casualties

Bomber Offensive Arthur Harris, 2005-03-01 The Royal Air Force commander of bombing operations during WWII offers an insider's view of his legendary career in this classic military memoir Marshal of the Royal Air Force Sir Arthur Bomber Harris remains a controversial figure in the history of the RAF While many vilify him for his merciless carpet bombing of Germany others believe that his contributions to Allied victory are grossly undervalued In Bomber Offensive Harris candidly describes how he led the men of Bomber Command in the face of appalling casualties his fierce disagreements with higher authority and the complicated relationship he had with Winston Churchill Written soon after the close of the Second World War Harris's memoirs reveals the man behind the Allied bombing offensive that destroyed the Nazi war machine but also many beautiful and historic cities such as Dresden His defense of these total war tactics stands in stark contrast to modern military policy which considers such indiscriminate killing a war crime

Bomber Harris Dudley Saward, 1987

Fire and Fury Randall Hansen, 2025-05-08 Insightful rigorously researched and splendidly written Donald L Miller author of Masters of the Air During World War II Allied bombing obliterated every major German and Japanese city Before the dropping of the atomic bombs conventional bombing had killed approximately 400 000 Germans and 330 000 Japanese the vast majority civilians Two thirds of Germans who died under the bombs did so in 1944 and 1945 and in the last year of the war cities with little military were obliterated In Japan American bombers destroyed all but three major Japanese cities and the people in them after March 1945 These raids occurred in other words when Allied victory was assured and when precision bombing techniques

were far more advanced than they were earlier in the war Fire and Fury asks why Based on extensive archival sources interviews with bombing survivors airmen and published first hand accounts the book looks at the bombing campaign from an avowedly human perspective Allied German and Japanese It recreates the experience of living through the death of a city It presents the complex personalities of the senior airmen and explores why bombing campaigns that seem so excessive seventy five years later seemed reasonable to many at the time It explains why those campaigns became so murderous so late in the war And it asks with the full benefits of time s fullness whether it was all worth it Perfect for fans of Max Hastings James Holland and Antony Beevor Outstanding Margaret MacMillan author of Paris 1919 Six Months that Changed the World Clear well argued and grippingly told Keith Lowe author of Inferno The Fiery Destruction of Hamburg 1943 Marshal of the Royal Air Force Sir Charles Portal Richard Michael Milburn,2024-03-08 Charles Frederick Algernon Portal was born in Hungerford England in 1893 One of seven brothers Portal developed a fierce competitive streak and a steely determination from an early age Known by all who knew him as Peter Portal enlisted in the Army at the outbreak of the First World War as a dispatch rider being mentioned in General French s very first dispatch Portal s abilities were quickly recognized and he gained a commission in short order It was in the air that Portal saw his future and he subsequently transferred to the Royal Flying Corps initially as an observer before training as a pilot In this latter role Portal proved a courageous and instinctive leader garnering the rare accolade of a DSO and Bar for his wartime service His meteoric rise continued in the inter war period and when Hitler s forces invaded Poland Portal had already ascended to the Air Force Board He then took the RAF s top command post at Bomber Command during the battles of France and Britain before replacing Cyril Newall as Chief of Air Staff aged just 47 in October 1940 Charles Portal was in General Eisenhower s words Britain s greatest wartime leader including Churchill Portal was a strategist a diplomat and an outstanding leader of the RAF in the Second World War He built productive and enduring relationships with the most powerful Allied leaders some of which including Churchill Bomber Harris and Hap Arnold are explored here Portal helped direct the UK s strategy from the darkest days of 1940 through to Allied victory in 1945 He never lost his calm even under the most extreme pressure and approached the war with a cool logic that defied the chaos of the day Despite his enormous achievements and being showered with post war accolades Portal is little known today His historical anonymity is a reflection of his disinterest in his own legacy He neither kept wartime diaries nor penned an egotistical autobiography to cash in on his post war fame He retired as he had served with dignity and humility traits that made him particularly influential with American allies As Wing Commander Rich Milburn reveals in this long overdue second biography Charles Portal was a hero in every sense a heroic battlefield leader in one global conflict and one of the men most directly responsible for Allied victory in a second *My Eternal Heroes* Desmond Joseph McCarthy,2019-04-29 This vivid story from an Anglo Irish American veteran of World War II tells firsthand of the terror and hardship of the Battle of Britain and the Blitz on London and the bravery of the British during those eighteen months when

they stood alone against Germany and Italy Tapping into the memories etched deeply into his mind while a young man McCarthy tells of his coming of age in war torn London His unique perspective as an Irishman born in Wales raised in London and immigrated to the United States offers a truly unique voice in the narrative of World War II **Playing Hard** Peter Unwin,2025-02-15 *Playing Hard* is a tribute to the power of play in all its forms a searching personal account of how play games and sports sanctify life and give it meaning In this moving and wide ranging examination Peter Unwin reflects on life and relationships through countless acts of play and the many unexpected places it is found Through a shared love of games the author reconnects with his terminally ill father and is exposed to the complexities of his father s past of his experiences with war and violence and of a different but equally powerful commitment to a life of play From Snakes and Ladders to shooting pool from an improbable soccer game in the Sahara to first memories of playing baseball under catalpa trees Peter Unwin examines the irresistible urge to have fun reminding us that to live is to play and to play hard is to live well

Bomber Command Roddy MacKenzie,2023-02-16 Roddy MacKenzie s father served in Bomber Command during the Second World War but like so many brave veterans who had survived the war he spoke little of his exploits So when Roddy started on his personal journey to discover something of what his father had achieved he uncovered a great deal about the devastating effectiveness of Bomber Command and the vital role it played in the defeat of Third Reich He realised that the true story of Bomber Command s achievements has never been told nor fully acknowledged Roddy became a man on a mission and this startlingly revealing and often personal study is the result *Bomber Command Churchill s Greatest Triumph* takes the reader through the early days of the Second World War and introduces all the key individuals who turned the Command into the war winning weapon it eventually became as well as detailing the men and machines which flew night after night into the heart of Hitler s Germany The main focus of his book is the destruction and dislocation wrought by the bombing to reduce and ultimately destroy Germany s ability to make war In his analysis Roddy dug deep into German archival material to uncover facts rarely presented to either German or English language readers These demonstrate that Bomber Command s continual efforts at appalling cost in aircrew casualties and aircraft losses did far more damage to the Reich than the Allies knew Roddy s father served with the Royal Canadian Air Force and Roddy naturally highlights its contribution to Bomber Command s successes another aspect of this fascinating story which the author believes has not been duly recognized *Bomber Command Churchill s Greatest Triumph* will certainly raise the debate on the controversial strategy adopted by Bomber Harris and how he was perceived by many to have over stepped his remit But most of all this book will revise people s understanding of just how important the endeavours were of those men who flew through the dark and through the searchlights the flak and the enemy night fighters to bring the Second World War in Europe to its crushing conclusion **"Bomber" Harris and the Strategic Bombing Offensive, 1939-1945** Charles Messenger,1984 Bogen beskriver de Allieredes strategiske bombeangreb p Nazityskland Bomber Harris luftmarskal Sir Arthur Harris leder af

Bomberkommandoen RAF Bomber Command spillede en vigtig rolle i udformningen af de allieredes strategiske planlægning under 2. Verdenskrig som resulterede i de massive bombninger af tyske byer. Det betød voldsomme og omfattende drab og masse mord på den tyske civilbefolkning. Harris blev en del kritiseret for for mange overflødige bombmissioner med unødvendige tab af fly og flybesatninger.

Hiroshima Andrew J. Rotter, 2008-02-28 The US decision to drop an atomic bomb on the Japanese city of Hiroshima on 6 August 1945 remains one of the most controversial events of the twentieth century. However, the controversy over the rights and wrongs of dropping the bomb has tended to obscure a number of fundamental and sobering truths about the development of this fearsome weapon. The principle of killing thousands of enemy civilians from the air was already well established by 1945 and had been practised on numerous occasions by both sides during the Second World War. Moreover, the bomb dropped on Hiroshima was conceived and built by an international community of scientists, not just by the Americans. Other nations including Japan and Germany were also developing atomic bombs in the first half of the 1940s, albeit haphazardly. Indeed, it is difficult to imagine any combatant nation foregoing the use of the bomb during the war had it been able to obtain one. The international team of scientists organized by the Americans just got there first. As this fascinating new history shows, the bomb dropped by a US pilot that hot August morning in 1945 was in many ways the world's offspring in both a technological and a moral sense. And it was the world that would have to face its consequences strategically, diplomatically, and culturally in the years ahead.

Reader's Guide to Military History Charles Messenger, 2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations. Designed for a wide variety of users, it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts. The book examines naval and air warfare as well as significant individuals including commanders, theorists, and war leaders. Each entry includes a listing of additional publications on the topic, accompanied by an article discussing these publications with reference to their particular emphases, strengths, and limitations.

Targeting the Third Reich Robert S. Ehlers, 2009 Argues that air intelligence played a crucial but largely overlooked role in the successful execution of the Allied bombing campaigns against the Third Reich, which in turn proved a decisive factor in both ending the war in Europe and ending it as soon as it did.

The Bomber War Robin Neillands, 2002 The bomber campaign was the most controversial of World War II. Did it help bring Germany to her knees? Was the RAF wrong to bomb cities? Did the USAAF really attack only military targets? Was anything achieved but the death of women and children? If not, are the bombers and especially Sir Arthur Harris war criminals? Or were all means justified against the Nazis? Robin Neillands examines every detail of the campaign and also the day-by-day, night-by-night endurance of the crews flying to the limit, well aware of their fate if shot down. He draws on the personal experiences of not only British but of American, Australian, Canadian, and other Allied fliers, as well as of German aircrew and civilians. Neillands also examines the moral issues and the case against Harris in particular. This text aims to contribute to the history of conflict in the age of freefall.
