*Faint Praise* Gail Pool, 2007-07-06 For more than two hundred years book reviewers have influenced American readers setting our literary agenda by helping us determine not only what we read but also what we think about what we read And for nearly as long critics of these critics have lambasted book reviews for their overpraise hostility banality and bias *Faint Praise* takes a hard and long overdue look at the institution of book reviewing Gail Pool herself an accomplished reviewer and review editor analyzes the inner workings of this troubled trade to show how it works and why it so often fails to work well She reveals why bad reviewing happens despite good intentions and how it is that so many intelligent people who love books can say so many unintelligent things on their behalf Reviewers have the power to award prestige to authors give prominence to topics and shape opinion and taste yet most readers have little knowledge of why certain books are selected for review why certain reviewers are selected to review them and why they so often praise books that aren t all that good Pool takes readers behind the scenes to describe how editors choose books for review and assign them to reviewers and she examines the additional roles played by publishers authors and readers In describing the context of reviewing she reveals a culture with little interest in literature much antipathy to criticism and a decided weakness

for praise In dissecting the language of reviews Pool demonstrates how it often boils down to unbelievable hype Pool explores the multifaceted world of book reviewing today contrasting traditional methods of reviewing with alternative book coverage from Amazon com to Oprah and suggesting how the more established practices could be revised She also explores the divide between service journalism practiced by reviewers versus the alleged high art served up by literary critics and what this fuzzy boundary between reviewing and criticism really means This is the first book to analyze the field in depth weighing the inherent difficulties of reviewing against the unacceptable practices that undermine the very reasons we read and need reviews Faint Praise is a book not just for those who create and review books but also for everyone who loves books By demystifying this hidden process Pool helps everyone understand how to read reviews and better decide what to read

Chong,2020-01-14 An inside look at the politics of book reviewing from the assignment and writing of reviews to why critics think we should listen to what they have to say Taking readers behind the scenes in the world of fiction reviewing Inside the Critics Circle explores the ways critics evaluate books despite the inherent subjectivity involved and the uncertainties of reviewing when seemingly anyone can be a reviewer Drawing on interviews with critics from such venues as the New York Times Los Angeles Times and Washington Post Phillipa Chong delves into the complexities of the review writing process including the considerations values and cultural and personal anxieties that shape what critics do Chong explores how critics are paired with review assignments why they accept these time consuming projects how they view their own qualifications for reviewing certain books and the criteria they employ when making literary judgments She discovers that while their readers are of concern to reviewers they are especially worried about authors on the receiving end of reviews As these are most likely peers who will be returning similar favors in the future critics fears and frustrations factor into their willingness or reluctance to write negative reviews At a time when traditional review opportunities are dwindling while other forms of reviewing thrive book reviewing as a professional practice is being brought into question Inside the Critics Circle offers readers a revealing look into critics responses to these massive transitions and how through their efforts literary values get made *The Survey* ,1911 *The New York Times Saturday Review of Books and Art* ,1968 **Oregon Law Review** ,1930 Vol 1 14 include the proceedings of the Oregon Bar Association previously issued separately as Proceedings of the Oregon Bar Association at its annual meeting **Report on the Classification of Positions and Schedules of Compensation.
