**Bilateralism, Multilateralism and Asia-Pacific Security** William Tow, Brendan Taylor, 2013-09-02 Many scholars of international relations in Asia regard bilateralism and multilateralism as alternative and mutually exclusive approaches to security co operation They argue that multilateral associations such as ASEAN will eventually replace the system of bilateral alliances which were the predominant form of U S security co operation with Asia Pacific allies during the Cold War Yet these bilateral alliances continue to be the primary means of the United States strategic engagement with the region This book contends that bilateralism and multilateralism are not mutually exclusive

and that bilateralism is likely to continue strong even as multilateralism strengthens It explores a wide range of issues connected with this question It discusses how US bilateral alliances have been reinvigorated in recent years examines how bilateral and multilateral approaches to specific problems can work alongside each other and concludes by considering how patterns of international security are likely to develop in the region in future *Japan's Nuclear Disarmament Policy and the U.S. Security Umbrella* A. DiFilippo,2006-10-02 This book explores the apparent contradictions behind Japan s stated goal of nuclear disarmament and its tacit acceptance of being protected by the U S nuclear umbrella *Asia Pacific Security Outlook 2003* Charles E. Morrison,2003-05 Presents the distinctive national perspectives of most member countries of the ASEAN Regional Forum ARF based on back ground papers written in almost all cases by nationals of the country in question in a form that facilitates comparison and the identification of areas where perceptions or interests differ The objective is both to increase mutual understanding within the community of security analysts in the region and to help elucidate the key issues that will affect future regional security and stability **Maritime Security in Southeast Asia** Kwa Kwa Chong Guan,John Skogan,2007-05-07 Expert contributors confront both the maritime security challenges and responses identifying the nature of the maritime security problem and critically evaluating the various responses with an eye to improving the management of prevailing and emerging security threats *Globalization and the National Security State* Norrin M.
