Introduction

As a term in literary regional studies, Commonwealth literature is generally believed to refer to the literary products of the independent countries of Africa, Asia, the Caribbeans and North America which were once colonised by the United Kingdom. The works of writers from Australia, New Zealand, Canada, India, Malaysia and Singapore are therefore regarded as Commonwealth literature.

The historical fact of colonization by the United Kingdom and the linguistic reality of English as mother tongue or official language do not automatically imply membership of either the Commonwealth as a political organisation or of the body of literary works known as Commonwealth literature. The United States is perhaps the most prominent example in this regard. The Republic of Ireland is another. There is also the ironic fact that the literature of the United Kingdom is not regarded as Commonwealth literature, even though its imperial past and language form the basis of the concept of Commonwealth literature.

In spite of all this, however, the designation "Commonwealth literature" has, over time, become a convenient appellation for the literary output of most of the countries that
