## **Communities We Have Lost Can Re:**

**Communities of Resistance and Resilience in the Post-Industrial City** Daniel Holland, 2024-08-01 This book is about the grassroots community revitalization movement in Pittsburgh Pennsylvania and Lyon France between 1980 and 2010 an extension of the post WWII civil rights campaign that is rarely considered It tells the story of residents attempts to improve their communities through social capital or people power In positive ways citizens created vibrant attractive neighborhoods But their actions also generated unintended consequences such as high real estate prices and minority displacement that threatened to unravel their hard work Communities of Resistance and Resilience is an ethnographic survey that relies on oral histories archival research on the ground site surveys and the author s personal experience as a neighborhood reinvestment practitioner for more than 30 years It brings to life stories that would otherwise remain obscured such as the lingering impact of the March for Equality and Against Racism organized in Lyon in 1983 and the formation of the Pittsburgh Community Reinvestment Group in Pittsburgh in 1988 both of which launched national movements This is of great use to scholars of transatlantic history as well as a general audience interested in modern social movements in the United States and France

**Punishment, Communication, and Community** R. A. Duff, 2003-05-15 Part of the Studies in Crime and Public Policy series this book written by one of the top philosophers of punishment examines the main trends in penal theorizing over the past three decades Duff asks what can justify criminal punishment and then explores the legitimacy of actual practices by examining what would count as adequate justification for them Duff argues that a communicative conception of punishment which he presents as a third way between consequentialist and retributive theories offers the most fruitful way of understanding punishment s meaning and justification Duff addresses such question as how much sentences should be constrained by proportionality requirements what modalities of punishment best communicate their intended meaning and what decisionmaking procedures he envisions This book will appeal to criminologists philosophers and others interested in theories of punishment

**Department for Communities and Local Government** Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2013-06-07 Central government grant funding to local authorities is being cut by over a quarter in real terms 7 6 billion between 2011 and 2015 The Department for Communities and Local Government is also introducing fundamental changes to the local government finance system with reforms to business rates and council tax benefits so the pressures on

the sector are set to increase The Department does not properly understand the overall impact on local services that will result from the funding reductions nor has it modelled how funding changes may adversely affect other areas of the public sector It must improve its ability to foresee what effects the full package of funding reductions and reforms will have on local authority areas particularly for those authorities which face higher deprivation levels Local authorities statutory duties have stayed broadly the same and in some areas such as adult social care the demand for services is increasing There is a risk that the worst affected councils will be unable to meet their statutory obligations threatening their viability The Department must clarify its plans to respond if councils become unviable More information is needed to understand councils spending and performance The Department did not make clear how it will monitor councils ability to cope with funding changes or the extent to which they are able to do this by increasing efficiency rather than reducing services Neither has it demonstrated that the information published is sufficient to provide assurance on the value for money with which councils spend their resources

Communities and Local Government Committee,2009 In its report of last year on the Communities and Local Government s Departmental Annual Report 2007 HC 170 session 2007 08 ISBN 9780215037978 the Committee commented on the particular nature of the Department s work on its unusual reliance for the achievement of the goals Government has set it on a plethora of other Departments agencies non departmental bodies local authorities and other stakeholders on the long devolved delivery chains by which those goals therefore have to be delivered and on the skills of influence brokering and negotiation which are required to achieve them In this Report the Committee assesses the progress made since last The most recent Cabinet Office Capability Review concludes that there has been a positive direction of travel for CLG in that period but the Committee concludes that there is still some way to go before CLG can be said to be performing at the highest achievable level of effectiveness The Department s overall performance against its Public Service Agreement targets is likewise moving in the right direction but still short of full effectiveness Achievement of efficiency targets is applauded Finally the report considers examples of particular policies which highlight some of the Department s strengths and weaknesses and follow up some issues in earlier inquiries These issues include eco towns the Decent Homes programme Home Information Packs Fire Service response times Firebuy the FiReControl programme The report also considers the Department s response to the serious flooding of summer 2007 and to the reviews which followed and the mismanagement of European Regional Development Fund monies

Transport Committee,2011-06-23 Under current proposals the Maritime Coastguard Agency plans to close ten of the existing 14 Maritime Rescue Coordination Centres and to leave three that remain open on a 24 hour basis and five that will operate in daylight hours only The Transport Committee found little support for the measures and has no confidence that under these proposals the Coastguard will in future be able to respond to emergencies at sea as well as they do now let alone in a more effective way The Committee is not convinced by the Government s claim that technology can at present replace local knowledge Serious concerns were raised that the safety of people at sea on cliffs and beaches will be jeopardised if the proposals proceed in their current form Ministers must issue revised proposals for further consultation The Committee also strongly condemns the Government s cost cutting decision to withdraw funding for the four Emergency Towing Vessels ETVs stationed around the UK coast large tugs that intercept disabled ships to prevent environmental pollution disasters The Transport Committee also criticises proposals to completely remove government funding for the Maritime Incident Response group MIRG a national fire fighting at sea capability Ministers should instead adopt a slimmed down MIRG which is more cost effective than the present arrangement Lastly the Committee records its disappointment that Mike Penning MP Minister for Shipping instructed regular coastguards not to give oral evidence to the committee on the basis that they were junior civil servants *Alliance News* ,1882 *The Carlisle Arrow* ,1916 *Parliamentary Debates (Hansard)*.
