

SOCIAL DILEMMA

A social dilemma refers to a situation in which individual rational behavior leads to negative collective outcomes.

OVERVIEW

A social dilemma occurs when individuals, driven by self-interest, make choices that collectively harm the larger group or community. The dilemma arises because each individual faces a conflict between personal gain and the common good. In a social dilemma, individuals often face a tension between short-term personal benefits and long-term sustainability.

EXAMPLES

- The tragedy of the commons is a social dilemma where multiple individuals, each acting in their self-interest, deplete and degrade a shared resource.
- **Gentrification:** Gentrification can boost a city's economy, bring in wealth, and improve the quality of life. However, it often displaces low-income residents.

Community Description Debate And Dilemma:

Community Mary Searle-Chatterjee, David Boulton, Michael Harnor, 2000 **Ethnography in the Open Science and Digital Age: New Debates, Dilemmas, and Issues** Colin Jerolmack, Alexandra Murphy, Victoria Reyes, 2024-06-19 In the current moment ethnography is caught up in a number of debates that have led ethnographers to reflect on classic methodological and ethical dilemmas in new ways The replication crisis had led to a movement for open science e.g. registering hypotheses in advance sharing codes and data but it seems unclear that recommended best practices are appropriate to ethnography It's even up for debate whether ethnography is more of a social science or a genre The fact that many ethnographies are widely read invites questions and criticisms from beyond the ivory tower including our subjects about the ethics of representation e.g. who has license to write about whom and the extent to which journalistic standards of data verification and transparency e.g. fact checking naming sources should apply to qualitative research Some ethnographers are calling for more open critical discussions about the embodied dimensions of fieldwork including not only emotions but also issues like sexual intimacy and harassment There's also a growing expectation that ethnographers empower our subjects to represent and analyze themselves What's more as more of social life is lived online it becomes increasingly unclear where the boundaries of the field site should be drawn and whether ethnographic conventions can be applied wholesale to the study of digital spaces **Global Debates, Local Dilemmas** Tran Minh Hang, 2018 The practice of sex selective abortion is on the rise globally stirring debates about gender inequality medical ethics and reproductive autonomy This ethnography documents practices of sex selection in Viet Nam showing how and why abortions are used to select the sex of children and how individuals and health professionals are implicated **The British National Bibliography** Arthur James Wells, 2002 **Class Action Dilemmas** Deborah R. Hensler, 1999 Class action lawsuits allowing one or a few plaintiffs to represent many who seek redress have long been controversial The current controversy centered on lawsuits for money damages is characterized by sharp disagreement among stakeholders about the kinds of suits being filed whether plaintiffs' claims are meritorious and whether resolutions to class actions are fair or socially desirable Ultimately these concerns lead many to wonder Are class actions worth their costs to society and to business Do they do more harm than good To describe the landscape of current damage class action litigation elucidate problems and identify solutions the RAND Institute for Civil Justice conducted a study using qualitative and quantitative research methods The researchers concluded that the controversy over damage class actions has proven intractable because it implicates deeply held but sharply contested ideological views among stakeholders Nevertheless many of the political antagonists agree that class action practices merit improvement The authors argue that both practices and outcomes could be substantially improved if more judges would supervise class action litigation more actively and scrutinize proposed settlements and fee awards more carefully Educating and empowering judges to take more responsibility for case outcomes and ensuring that they have the

resources to do so can help the civil justice system achieve a better balance between the public goals of class actions and the private interests that drive them Business Ethics, Regulation and Law Richard Schwindt,1995 Whitaker's Books in Print ,1998 **Librarianship Without Frontiers** Library Association. Dilemmas Sudhir Chandra, 2002 The central argument in this volume is that contemporary social consciousness is marked by an underlying ambivalence that resists analysis in terms of neat binary categories Exploring the interplay of contradictory impulses and the confluence of apparently irreconcilable forces in the making of social and political phenomena the essays here deal with a wide range of issues concerning our colonial past and the post colonial present The author deals with the stirrings of the nationalist consciousness in nineteenth century India to show that the same person s or movement often revealed both progressive and reactionary attitudes The ambivalence further reveals itself equally in the texts of nineteenth century writers and in cataclysmic events like Hindu Muslim riots in Gujarat today Two essays on Govardhan ram Tripathi a Gujarati litterateur bring out the unresolved contradictions that underlay his own consciousness and that of his society More than a century later the post 1992 riots in Surat and the Hindutva terror in Gujarat in 2002 reveal the vulnerability of broader social forces Gandhi s realization of the failure of swadeshi in the wake of Noakhali as indeed the dilemma posed by his attitude to religious conversion further prove the point Sudhir Chandra is the author of Enslaved Daughters Colonialism Law and Women s Rights 1997 The Oppressive Present Literature and Social Consciousness in Colonial India 1992 Dependence and Disillusionment Emergence of National Consciousness in Later Nineteenth Century India 1975
