Community Disability Services Ian James Dempsey, Karen Nankervis, 2006 The first Australasian text on community disability services to provide a ready source of evidence based practice and service management guidelines It seeks to provide an integration of principles policy and practice in disability service provision in the 21st century

Disability and Social Movements Dr Rachel Carling-Jenkins, 2014-11-28 This book provides the reader with a ground breaking understanding of disability and social movements By describing how disability is philosophically historically and theoretically positioned Carling Jenkins is able to then examine disability relationally through an evaluation of the contributions of groups engaged in similar human rights struggles The book locates disability rights as a new social movement and provides an explanation for why disability has been divided rather than united in Australia Finally it investigates whether the recent campaign to implement a national disability insurance scheme represents a re emergence of the movement It will be of interest to all scholars and students of both disability studies and social movements

*Rethinking Social Work Practice with Multicultural Communities* Yolanda C. Padilla, Ruth McRoy, Rocío Calvo, 2020-05-21 With research showing that clients from diverse racial and ethnic groups disproportionately experience barriers in their interactions with social services and that providers recognize the need to be better prepared to work with

these groups this book invites us to rethink current approaches to social work practice with multicultural communities We begin with a synthesis of the current evidence on the provision of care to multicultural communities that provides an in depth look at both client and provider experiences The following chapters offer tangible research based approaches to engaging with multicultural clients and reveal often unrecognized problems with current models of social work practice A unique compilation of rigorous qualitative experimental and community based studies demonstrate the effectiveness of culturally grounded interventions and identify the specific factors associated with positive outcomes Areas covered include disability marriage and couple relationship problems domestic violence and mental illness within Latinx African American First Nations and South Asian communities As the authors in this book show the stories of multicultural communities are narratives of unprecedented resourcefulness and reinvention Yet social work underutilizes rich family and community cultural resources By not facilitating their involvement social service systems compromise these vital resources which social services cannot replace In arguing that we need to expand professional boundaries to encompass indigenous practices family and extended kin and therapeutic relationships that make sense to different cultural groups this book will be of interest to those studying the ways in which social work practice can be improved to better suit the needs of a racially and ethnically diverse population This book was originally published as a special issue of the Journal of Ethnic Cultural Diversity in Social Work *Social Work Practice in Health* Melissa Petrakis,2022-12-01 Health services practice or working with clients facing health issues requires diverse approaches and wide ranging knowledge In this fully revised and expanded second edition Melissa Petrakis draws on the experience and expertise of leading researchers and practitioners to provide a guide to the disparate settings in which social workers are engaged and the conceptual frameworks and skills needed for effective practice Including new chapters on compassion in healthcare neoliberalism and health social justice suicidal distress and health social work in regional rural and remote settings the book begins by examining the nature of health social work and considers its core values and principles Part I also provides an overview of the social determinants of health Part II explores key areas of practice including trauma informed practice mental health aged care dual diagnosis and working with people living with disability Part III looks at politicised issues reform agendas in the field including indigenous approaches to health refugee health and concludes by considering how a focus on well being informed by Maori approaches could provide new insights into better practice Underpinning the book throughout is a clear guide to assessment procedures case management strengths based practices and developing effective partnerships and collaboration All this makes *Social Work Practice in Health* a key reference tool for social work students and practitioners *The Purdue Alumnus* ,2006 **Book Review Index** ,2006 Every 3rd issue is a quarterly cumulation **Families in Society** ,2009 **Nursing Times, Nursing Mirror** ,2005 *Integrating Disability Content in Social Work Education* Stephen F.
