## **Community Plans Economic Decision Making In Communities:**

*Democratic Economic Planning* Robin Hahnel, 2021-05-31 Democratic Economic Planning presents a concrete proposal for how to organize carry out and integrate comprehensive annual economic planning investment planning and long run development planning so as to maximize popular participation distribute the burdens and benefits of economic activity fairly achieve environmental sustainability and use scarce productive resources efficiently The participatory planning procedures proposed provide workers in self managed councils and consumers in neighbourhood councils with autonomy over their own activities while ensuring that they use scarce productive resources in socially responsible ways without subjecting them to competitive market forces Certain mathematical and economic skills are required to fully understand and evaluate the planning procedures discussed and evaluated in technical sections in a number of chapters These sections are necessary to advance the theory of democratic planning and should be of primary interest to readers who have those skills However the book is written so that the main argument can be followed without fully digesting the more technical sections Democratic Economic Planning is written for dreamers who are disenchanted with the economics of competition and greed want to know how a system of equitable cooperation can be organized and also for sceptics who demand hard proof that an economy without markets and private enterprise is possible

**Planning for Healthy Communities** Joongsob Kim, 2025-09-16 This book investigates multi disciplinary approaches to addressing the health of disadvantaged communities through equitable community development systems CDSs The core concepts underlying the book are three dimensions of support infrastructure people human centering place place cultivating and ecosystem sustainable capitalization leveraging several theories community capital social justice from community development This book is based on the results of a recent grassroots citywide engagement driven initiative in Detroit and on best practice case studies in Chicago Indianapolis Cleveland Boston Philadelphia Minneapolis Richmond and Portland The initiative s significant outcomes include a consensus bolstered by those case studies on seven components deemed essential to an equitable system for community development This book proposes that the CDS can enhance community health if at least the following requirements are met 1 adoption of a community vitality framework as a citywide shared narrative 2 coordination across financial institutions to allocate funds equitably to underserved communities and 3 implementation of system governance with stronger attention to resident voices This book demonstrates that bottom up CDSs can and should be leveraged to enhance the health of underserved communities and investigates how best to address the three requirements to make the equitable system based approach work effectively in practice The audience of community development and community health actors will learn from Detroit and the case studies offering lessons for other cities facing similar issues how to leverage equitable CDSs to promote healthy communities
