## Como Ejercer Su Poder Ciudadano:

*Como ejercer su poder ciudadano* Marta Oyhanarte, 1992 *Manual del poder ciudadano. Lo que México necesita* Ulrich Richter Morales, 2013-08-15 Incluye actualización sobre la Reforma Política Una nueva fuerza ha comenzado a tomar las riendas de México Es una forma de poder que ha puesto en evidencia la incapacidad del Estado para enfrentar los grandes problemas nacionales Dicho mpetu est representado por los ciudadanos Son ellos quienes comienzan a ocuparse del trabajo que la clase política no ha podido o no ha querido realizar Haciendo a un lado los discursos abstractos y las visiones idealizadas de la realidad el ensayista Ulrich Richter Morales emprende un análisis concreto objetivo y accesible del papel fundamental de la ciudadanía en una sociedad que requiere con urgencia un cambio de rumbo **The Rule of Law in Nascent Democracies** Rebecca Bill Chavez, 2004 This book explains how the rule of law emerges and how it survives in nascent democracies The question of how nascent democracies construct and fortify the rule of law is fundamentally about power By focusing on judicial autonomy a key component of the rule of law this book demonstrates that the fragmentation of political power is a necessary condition for the rule of law In particular it shows how party competition sets the stage for independent courts Using case studies of Argentina at the national level and of two neighboring Argentine provinces San Luis and Mendoza this book also addresses patterns of power in the economic and societal realms The distribution of economic resources among members of a divided elite fosters competitive politics and is therefore one path to the requisite political fragmentation Where institutional power and economic power converge a reform coalition of civil society actors can overcome monopolies in the political realm **Actividad administrativa, actividad de gobierno y poder discrecional** Allan R. Brewer Carías, 2023-11-22 La actividad administrativa es una realización de la Administración Pública lo que exige precisar qué debemos entender por tal concepto sin duda de sentido al menos ambivalente En efecto la noción de Administración Pública puede referirse tanto a un conjunto de órganos como a una actividad estatal en sí misma por lo que a los efectos de definir la actividad administrativa debemos por supuesto optar por el concepto orgánico y entender por Administración Pública como un conjunto de órganos de las personas jurídicas estatales es decir de los sujetos de derecho que actualizan la voluntad del Estado El principio general de que la competencia de todos los órganos del Estado para la realización de sus actividades tiene que derivar de texto constitucional o legal expreso en lo que se refiere a la actividad administrativa la misma básicamente puede y está básicamente en la ley pues dicha actividad siempre es de carácter sublegal La actividad administrativa al ser de carácter sublegal está por sobre todo sometida al derecho y controlable jurisdiccionalmente En efecto conforme al sistema establecido en la Constitución todos los actos estatales están sometidos al derecho y todos son controlables jurisdiccionalmente por razones de constitucionalidad o de legalidad Aquí está la esencia del principio de la legalidad y del Estado de Derecho Allan R Brewer Carías **Ética de la liberación** Martín Johani Urquijo Angarita, 2024-08-09 En el libro *tica de la liberación* se realiza una interpretación crítica a la teoría de la liberación desarrollada por el filósofo

latinoamericano Enrique Dussel buscando analizar sus implicaciones sociales políticas y económicas para realizar esta tarea se parte de las preguntas cuáles es el espacio en el que surge y qué motivó a generar una indagación política por el concepto de liberación En qué consiste la política de la liberación y cuáles son sus principios básicos Cuáles es el valor básico que fundamenta el ámbito prescriptivo y crítico de la política de la liberación desarrollado por Dussel Ser posible sustentar que la propuesta contenida como política de la liberación se constituya en una teoría política del orden social si esto es así cuáles son sus principales implicaciones en el ámbito social político y económico que prescriba un orden social bueno The Construction of the Rule of Law in Nascent Democracies Rebecca Bill Chavez, 2001 **Sapere aude: La información: Libre de censura y libre del mercado**, *El nuevo constitucionalismo latinoamericano y la destrucción del Estado democrático por el juez constitucional* Allan R. Brewer Carías, 2023-11-24 El Juez Constitucional sea que se trate de un Tribunal Constitucional especializado o de la Sala Constitucional de la Corte Suprema de un país tiene como misión esencial el garantizar la vigencia de la Constitución y con ello la vigencia del Estado democrático de derecho asegurar el derecho del pueblo a ser gobernado por sus representantes electos mediante sufragio preservar el funcionamiento del Estado bajo el principio de la separación de poderes y velar porque todos los órganos del Estado acaten la Constitución Bajo ese ángulo por tanto es inconcebible que un Juez Constitucional pueda tener como misión la de demoler el Estado de derecho y con ello destruir las bases del sistema democrático representativo y participativo Sin embargo eso fue precisamente lo que ocurrió en Venezuela a partir de 1999 y durante los últimos 20 años 1999-2018 cuando el Juez Constitucional se convirtió en el más importante y perverso instrumento utilizado por el régimen autoritario que asaltó el poder en 1999 mal utilizando métodos democráticos para demoler los principios de la democracia Este libro del profesor Allan R Brewer Carías analiza ese proceso de cómo siguiendo las propuestas formuladas bajo el mote de un nuevo constitucionalismo que un grupo de profesores españoles lograron introducir en América Latina de la mano de Presidentes autoritarios primero en Venezuela con Hugo Chávez y luego en Ecuador y Bolivia con Rafael Correa y Evo Morales se fueron demoliendo progresivamente los principios de la democracia representativa bajo el espejismo de sustituirla por una falaz democracia participativa cuyos principios aparte de quedar algunos plasmados en el texto de las Constituciones no llegaron a implementarse y resultaron ser una gran mentira Todo ese proceso destructivo se basó en la propuesta inicial de la convocatoria de Asambleas Constituyente populares no reguladas ni previstas en los textos constitucionales las cuales abrieron la puerta para que las Constituciones perdieran todo principio de rigidez y supremacía El resultado y es el caso de Venezuela que se estudia en este libro fue un catastrófico desmantelamiento de los principios democráticos y de la separación de poderes lamentablemente ejecutado desde dentro del propio Estado utilizándose para ello al propio Juez Constitucional el cual como instrumento malvado fue dictando sentencias tras sentencias a la carta o a la medida tal como le fue requerido por el Poder Ejecutivo conforme avanzaba la entronización del régimen autoritario El objeto central de este libro es el estudio de todas esas sentencias **Democracia real y poder ciudadano**
