Artists Garden:

The Artist's Garden Jackie Bennett, 2026-05-05 The Artist's Garden offers an intriguing study into 20 gardens that have inspired and been home to some of the greatest painters from history This sumptuously illustrated and fascinating book delves into the stories behind the gardens which inspired some of the most beautiful and important works of art These gardens not only supplied the inspiration for creative works but also illuminate the professional motivation and private life of the artists themselves from Cezanne's house in the south of France to Childe Hassam at Celia Thaxter's garden off the coast off Maine Flowers and gardens have often been the first choice for artists looking for a subject A garden close to the artist's studio is not only convenient for daily material and ideas but also has the advantage of changing through the seasons and over time Claude Monet's Giverny was the catalyst for hundreds of great paintings by Monet and other artists each one different from the one before Sometimes a whole village becomes the focus for a colony of artists as at Gerberoy in Picardy and Skagen on the northernmost tip of Denmark This book is about the real homes and gardens that inspired these great artists gardens that can still be visited today The relationship between artist and garden is a complex one A few artists including Pierre Bonnard and his neighbour Monet were keen gardeners as much in love with their plants as their work while for others like Sorolla in Madrid his courtyard home was both a sanctuary and a source of ideas This book is as unmissable for art lovers as it is for anyone who knows the joy of time spent in gardens offering an intriguing insight into the lives of these great painters and the gardens which inspired them to their creative heights Now available in paperback

Performance on Behalf of the Environment Richard D. Besel, Jnan A. Blau, 2013-11-26 Human degradation of the

environment has been documented by scholars across a range of disciplines the global temperature of the planet continues to rise abandoned industrial sites stain once vibrant communities and questions about the purity of our water and foods linger In the shadow of these material conditions concerned citizens have reacted by issuing critiques against careless consumerism and excessive lifestyles Their hope is to illustrate and inspire alternative ways of living As part of such efforts and activism some have turned to performance as a means to investigate matters further pose challenges and questions and enact new ways of being and thinking in a globalized world Performance on Behalf of the Environment is a collection of essays from a diverse group of scholars that explore critically the strengths limitations and processes of what can be termed environmental performances

Artists' Gardens Bill Laws,1999 Artists gardens are places both of creation and inspiration often the most personal reflection of their minds and work This is a celebration of the gardens of 20 artists worldwide It highlights the links between the artists their work and their local landscapes The relationship between artist and garden is often an intimate one Crippled with age the French Impressionist Renoir determinedly worked away in his garden until his death at Les Collettes in southern France while American artist Jennifer Bartlett produced over 200 canvasses of the same French villa garden and the Spanish painter Sorolla was content simply to create a Moorish haven of peace and tranquillity in the back yard of his Madrid city home
