Tourism Art and Souvenirs David Hume, 2013-10-01 This book examines the relationship between art and tourism through the study of the material culture of tourism tourist art and souvenirs It thoroughly examines how to categorise the material culture of tourism within the discourses of contemporary art and cultural anthropology and demonstrates that tourist art is a unique expression of place and genuine artistic style The first investigation to consider the activity of souvenirs from both indigenous and settler tourist sites it brings a unique addition to the existing dated research in the area Working initially from Graburn's definition of tourist art as the art of one culture made specifically for the consumption of another Tourism Art and Souvenirs sheds light on important aspects of the souvenir that have not been widely discussed The most recent research is used to consider how the souvenir is designed and consumed consumer expectations and influence on the character of the souvenir how the souvenir maker is consumed by the tradition of heritage and how products become successful as souvenirs The title also investigates the language involved in the representation of place and the recording of experience through the souvenir developing a method that expresses the descriptive data of individual souvenir artefacts graphically so the patterns of language may be analysed Enhancing the understanding of material culture in tourism and therefore adding to future tourism development this volume will be of interest to upper level students researchers and academics in tourism culture heritage and sustainability
