Morphology of Flowers and Inflorescences Focko Weberling,1992-09-03 **Field, Forest, and Wayside Flowers**

Maud Goings,1899 Excerpt from book CHAPTER V GREEN LEAVES AT WORK Between the budding and the falling leaf Stretch happy skies With colors and sweet cries Of mating birds in uplands and in glades The world is rife 7 B Aldrich When spring long waited for has come indeed and young leaves are unfolding in May sunshine we find the ground beneath the branches strewn with half transparent green or brownish scales In city parks they litter the asphalt walks and drift along their edges into little heaps They are bud scales whose day of usefulness is over They have braved all the rigors of storm and frost while folded safe within them lay the foliage of the coming summer destined to expand in tender colors under happy skies But the bud scales seldom have any beauty save the beauty of fitness They and the sleeping life which they enfold together constitute the winter bud It contains very little water in its tissues and so can withstand low temperatures without freezing The bud scales live in a chill and sombre world and when the sky is blue and full of light they fall and perish in the heart of spring Yet they are themselves imperfectly formed and partially developed leaves Under certain exceptional circumstances they have shown their possibilities and developed into typical leaves And under most circumstances there is in them the arrested power to become like the green foliage of summer Stunted as they are these scales have done work which perfect leaves could never do Their horny substance has shed the cold rains of winter resisted the frost and protected the tips and shoots in which the life of the branches lay dormant We owe to the bud scales most of the beauty of the summer world Their highest usefulness has been attained through sacrifice of their own life

Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
