Asia Pacific:

The Financial Inclusion Landscape in the Asia-Pacific Region: A Dozen Key Findings Mrs. Sarwat Jahan, Jayendu De, Mr. Fazurin Jamaludin, Piyaporn Sodsriwiboon, Cormac Sullivan, 2019-04-19 Financial inclusion is a multidimensional concept and countries have chosen diverse methods of enhancing financial inclusion with varying degrees of results. The heterogeneity of financial inclusion is particularly striking in the Asia Pacific region as member countries range from those that are at the cutting edge of financial technology to others that are aiming to provide access to basic financial services. The wide disparity is not only inter country but also intra country. The focus of this paper is to take stock of the current state of financial inclusion in the Asia Pacific region by highlighting twelve stylized facts about the state of financial inclusion in these countries. The paper finds that the state of financial inclusion depends on several factors but a holistic approach calibrated to specific country conditions may lead to greater financial inclusion. **Asia-Pacific Issues** Karen Oppenheim Mason, 1994

Intellectual Property and Free Trade Agreements in the Asia-Pacific Region Christoph Antons, Reto M. Hilty, 2014-12-05 This book is highly topical. The shift from the multilateral WTO negotiations to bilateral and regional Free Trade Agreements has been going on for some time but it is bound to accelerate after the WTO Doha round of negotiations is now widely regarded as a failure. However, there is a particular regional angle to this topic as well. After concluding that further progress in the Doha round was unlikely, Pacific Rim nations recently have progressed with the negotiations of a greatly expanded Trans Pacific Partnership Agreement that includes industrialised economies and developed countries such as the United States, Japan, Australia, and New Zealand, recently emerged economies such as Singapore, but also several developing countries in Asia and Latin America such as Malaysia and Vietnam. US and EU led efforts to conclude FTAs with Asia Pacific nations are also bound to accelerate again after a temporary slowdown in the negotiations following the change of government in the United States and the expiry of the US President's fast track negotiation authority. The book will provide an assessment of these dynamics in the world's fastest growing region. It will look at the IP chapters from a legal perspective but also put the developments into a socio-economic and political context. Many agreements in fact are concluded because of this context rather than for purely economic reasons or to achieve progress in fields like IP law. The structure of the book follows an outline that groups countries into interest alliances according to their respective IP priorities. This ranges from the driving forces of the EU, US, and Japan via Asia Pacific resource rich but IP poor economies such as Australia and New Zealand, recently emerged economies with strong IP systems such as Singapore and Korea to leading developing countries such as China and India and second tier industrializing economies such as Thailand, Malaysia, and Indonesia. *Asia-Pacific Regional Security Assessment 2022* The International Institute for Strategic Studies (IISS), 2022-06-10 The Asia Pacific Regional Security Assessment examines key regional security issues relevant to the policy focused discussions of the IISS Shangri La Dialogue Asia's premier defence summit convened by the International Institute for Strategic Studies. It is

published each year in association with the Dialogue and the issues analysed within its covers are central to discussions at the event Among the topics explored are US Indo Pacific strategy alliances and security partnerships Chinese perspectives on regional security Taiwan's security and the possibility of conflict the continuing challenges posed by North Korea's nuclear and missile programmes the nuclear dynamics of Sino American security relations air and naval operations in the Asia Pacific Sino American technology competition Japan's competition and cooperation with China India's role in the Quadrilateral Security Dialogue Quad the evolving regional security engagement of European states and the European Union China's role as an upstream state in the Mekong sub region and the climate crisis and Asia Pacific security As this volume goes to press the war in Ukraine overshadows the international security landscape and many chapters in this volume touch on the conflict's ramifications for security in the Asia Pacific Authors include leading regional analysts and academics at the forefront of research and analysis Aidan Foster Carter James Crabtree Peter A Dutton Brian Eyster Michael Green Sheryn Lee Jeffrey G Lewis Tanvi Madan Jeffrey Mazo Ben Schreer Yun Sun Nicholas Szechenyi Brendan Taylor Ashley Townshend and Paul Triolo

Asia's Stock Markets Mr. Fabian Lipinsky, Li Lian Ong, 2014-02-26 Stock markets play a key role in corporate financing in Asia However despite their increasing importance in terms of size and cross border investment activity the region's markets are reputed to be more idiosyncratic and less reliant on economic and corporate fundamentals in their pricing Using a model that draws on international asset pricing and economic theory as well as accounting literature we find evidence of greater idiosyncratic influences in the pricing of Asia's stock markets compared to their G 7 counterparts beyond the identified systematic factors and local fundamentals We also show proof of a significant relationship between the strength of implementation of securities regulations and the noise in stock pricing which suggests that improvements in the regulation of securities markets in Asia could enhance the role of stock markets as stable and reliable sources of financing into the future

Asia Eyes America Jonathan D. Pollack, 2007 Contains a collection of papers produced by participants U S and regional scholars and analysts at a conference Asia Eyes America held at the Naval War College in Newport Rhode Island in May 2006 What are the implications of Asia's longer term transformation for U S interests How might change reconfigure American security requirements in the next decade and beyond On what basis does United States reaffirm yet redefine its enduring commitment to regional order This volume is a collaborative effort involving prominent specialists on both sides of the Pacific The book focuses on underlying attitudes toward American power and policy especially as viewed by strategic analysts within the region Various contributors describe contradictory attitudes toward American power Most states hope to deepen ties with the United States while avoiding comprehensive envelopment in U S strategy There is a tension between the preference for continued American regional

involvement while seeking to limit possibilities of highly intrusive U S policy interventions Both considerations will continue to shape regional attitudes toward American power especially U S military power

Asia Pacific and Human Rights Paul Close,David Askew,2017-03-02 Human rights are acquiring an increasingly prominent role on the world stage Interest in concern about and action on human rights are widespread and rising albeit in a far from globally even uniform and untroubled fashion Human rights have generated a booming global industry while having

become not unconnectedly highly controversial and deeply contested Human rights matters have emerged as a major source of disagreement dispute and discord at and between the local regional and global levels of social cultural political and economic life These developments are addressed in the book by an examination of the links between the evolving global human rights regime GHRR and the character and course of human rights in the world s most dynamic complex and problematic region that of the Asia Pacific The authors argue that although the Asia Pacific and human rights nexus is influenced by cultural clashes it is largely shaped by power distributions and struggles rooted in the global political economy GPE The prevailing GHRR reflects the way in which globalization processes have been Western led but its future is far from certain given the current shift in the balance of GPE power towards the Asia Pacific and especially East Asia
