**Communitarianism in Law and Society** Paul Van Seters,2006-04-18 In this new collection of essays Paul van Seters brings together an international group of scholars from diverse academic backgrounds to reflect upon the remarkable rise of communitarianism in contemporary studies of law and society Taking account of the intricate relationship between law and communitarianism these essays critically assess the communitarian perspective in order to gain a more systematic insight into its distinctive constraints and the special opportunities it provides At its core this work contends that law necessarily presupposes community but also essentially extends it Arguing that communitarianism must be understood as an effort to reconstruct liberalism and not just debunk it *Communitarianism in Law and Society* explores what good is to come of this movement for legal theory and practice

**Decisions on Democracy** Per Strand,2000

*Constitutional Policy and Change in Europe* Joachim Jens Hesse,Nevel Johnson,1995 During recent years constitutional issues have claimed increasing attention in many European countries The social and political transformations in Central and Eastern Europe have thrust constitutional debates to the fore This book looks at the needs and claims of constitutional adaption and reconstruction in contemporary Europe The range and complexity of the constitutional challenge in Europe which differs markedly form one country to another is fully explored

The contributions to this book illustrate certain aspects of this challenge as it is perceived in various European countries and of the different responses to it. The problems discussed are approached from the constitutional legal aspects in others from those of political science. The different tasks facing Western and East and Central Europe are considered in some detail. In Western Europe constitutional debate has assumed greater prominence on account of closer economic and political integration within the European Community and internal changes within particular countries. In the East far reaching constitutional reconstruction has been an imperative a task which has had to be tackled in the difficult and uncertain conditions of radical social and economic transformation. The book also address some of the issues of political theory presented by the notion of liberal constitutionalism itself and throws light on the direction of future change.

The overall result is a detailed contextual analysis of Ireland's basic law aimed at a readership interested in the Irish Constitution and constitutional matters generally.

Authors of these essays include some of the best known practitioners and critics of contemporary journalism. They wrote these papers as part of a 2 year lecture series funded by the Ethics and Excellence in Journalism Foundation and hosted by the University of South Florida St Petersburg.
