Internet Policy and Economics William H. Lehr, Lorenzo Maria Pupillo, 2009-06-04 For over a decade William Lehr, Lorenzo Pupillo, and their colleagues in academia, industry, and policy have been on the electronic frontier exploring the implications of the technologies that are revolutionizing communication and culture. the subsidy Using a variety of test score results however it is clear that the success of the E Rate program at least so far has been restricted to the increase in access The increase in Internet connections has had no measurable impact on any measure of student achievement
