This beginner-friendly volume is a detailed account on leadership in the rapidly changing business environment in India, offering classical as well as emerging models of leadership. Through illustrative case studies, research, and self-assessment instruments, it maps the frameworks, perspectives, and skill sets required for an individual contributor to evolve into a true leader. This book includes a wide range of themes: current and emergent, leading a spiritual workplace, remote leadership, digital leadership, agile leadership, leading with stories, among others.
