Ross, 2020-06-30 This path breaking book reveals how Hollywood became Hollywood and what that meant for the politics of America and American film *Working Class Hollywood* tells the story of filmmaking in the first three decades of the twentieth century a time when going to the movies could transform lives and when the cinema was a battleground for control of American consciousness Steven Ross documents the rise of a working class film movement that challenged the dominant political ideas of the day Between 1907 and 1930 worker filmmakers repeatedly clashed with censors movie industry leaders and federal agencies over the kinds of images and subjects audiences would be allowed to see The outcome of these battles was critical to our own times for the victors got to shape the meaning of class in twentieth century America Surveying several hundred movies made by or about working men and women Ross shows how filmmakers were far more concerned with class conflict during the silent era than at any subsequent time Directors like Charlie Chaplin D W Griffith and William de Mille made movies that defended working people and chastised their enemies Worker filmmakers went a step further and produced movies from *A Martyr to His Cause* 1911 to *The Gastonia Textile Strike* 1929 that depicted a unified working class

using strikes unions and socialism to transform a nation J Edgar Hoover considered these class conscious productions so dangerous that he assigned secret agents to spy on worker filmmakers Liberal and radical films declined in the 1920s as an emerging Hollywood studio system pressured by censors and Wall Street investors pushed American film in increasingly conservative directions Appealing to people s dreams of luxury and upward mobility studios produced lavish fantasy films that shifted popular attention away from the problems of the workplace and toward the pleasures of the new consumer society While worker filmmakers were trying to heighten class consciousness Hollywood producers were suggesting that class no longer mattered Working Class Hollywood shows how silent films helped shape the modern belief that we are a classless nation *The Griffith Project, Volume 8* Paolo Cherchi Usai,2019-07-25 No other silent film director has been as extensively studied as D W Griffith However only a small group of his more than five hundred films has been the subject of a systematic analysis and the vast majority of his other works still await proper examination For the first time in film studies the complete creative output of Griffith from Professional Jealousy 1907 to The Struggle 1931 will be explored in this multivolume collection of contributions from an international team of leading scholars in the field Created as a companion to the ongoing retrospective held by the Pordenone Silent Film Festival the Griffith Project is an indispensable guide to the work of a crucial figure in the arts of the nineteenth century The latest volume assesses Griffith s work in 1914 15 It includes an extensive multi authored evaluation of The Birth of a Nation **The Movies in the Age of Innocence, 3d ed.** Edward Wagenknecht,2014-10-01 Upon its original publication in 1962 Edward Wagenknecht s The Movies in the Age of Innocence immediately earned recognition as a classic in the history of early cinema A tribute to American silent film from the first person perspective of one who grew up with the medium the volume surveys the pre feature and feature era of silent films from a distinctly literary standpoint and considers the careers of directors like D W Griffith and Erich von Stroheim and actors such as Charlie Chaplin Mary Pickford and Lillian Gish With nearly 90 illustrations from early films fan magazines and brochures indices of film titles and names and an appendix containing Wagenknecht s otherwise unavailable 1927 pamphlet Lillian Gish An Interpretation this third edition retains its significance today *Catalog of the Library of the Museum of Modern Art: Eh* Museum of Modern Art (New York, N.Y.).
