Moriyama,1993 **Photography and Doubt** Sabine T. Kriebel,Andrés Mario Zervigón,2016-11-25 Recent decades have seen photography's privileged relationship to the real come under question Spurred by the postmodern critique of photography in the 1980s and the rise of digital technologies soon thereafter scholars have been asking who and what built this understanding of the medium in the first place Photography and Doubt reflects on this interest in photography's referential power by discussing it in rigorously historical terms How was the understanding of photographic realism cultivated in the first place What do cases of staged and manipulated photography reveal about that realism's hold on audiences across the medium's history Have doubts about photography's testimonial power stimulated as much knowledge as its realism Edited by Sabine T Kriebel and Andrés Mario Zervigón Photography and Doubt is the first multi-authored collection specifically designed to explore these questions Its 13 original essays illustrated with 73 color images explore cases when the link between the photographic image and its referent was placed under stress and when photography was as attuned to its myth-making capabilities as to its claims to authenticity Photography and Doubt will serve as a valuable resource for students and scholars in art history visual and media studies philosophy and the history of science and technology **Daidō Moriyama** Daidō Moriyama,Taka Ishii Gyararī,2011 *Daidō Moriyama 1965~* 1964 106 **Daidō Moriyama, it** Daidō Moriyama,2006 *Daidō Moriyama* Daidō Moriyama,2010 *Daidō Moriyama* Mark Holborn,2024-10-03 The direct sequel to a classic photobook An exceptional selection of photographs from Daidō Moriyama's seminal magazine publication from 2017 to today **Limited Edition Moriyama 1** Filippo Maggia,2018-02 For the first time the colour photographs realised by Daidō Moriyama one of the leading figures in contemporary Japanese photography An extraordinary limited edition artist book edited by Filippo Maggia intended for all collectors searching for the magic of a precious and extraordinary product destined over time to grow in value Considered one of the great masters of contemporary Japanese photography Daidō Moriyama is a lone traveller whose black and white images recount visions and worlds hidden just beneath the surface of reality However there are many sides to his practice here for the first time over 250 colour photographs taken between the 1960s and the 1970s A constant flow of images that is often frenetic or suddenly suspended following the rhythm of an unfettered restless life spent travelling the roads of the world **Reflection and Refraction** Daidō Moriyama,2012 Daidō Moriyama's Reflection and Refraction is compiled from two earlier collections Auto portrait and Sunflower published by MMM in 2010 and 2011 respectively Carefully sequenced and handsomely printed in deep resonant blacks that intensify the grainy textures Moriyama so famously elicits from his street scenes and interiors Reflection and Refraction forms a cumulative record of Japan's often contradictory social fabric Moriyama's images are intensely brooding and yet seemingly casual establishing a relationship to the world that he likens to his shadow in the brief preface to this volume I strolled down the street holding a camera my shadow falling onto the road and across walls With the sun high above my shadow followed closely as though pursuing me The silhouette shadow was now my companion This is how my shadow

and I relate to each other Similarly my camera and I or the world and photography also connect to each other in the same way
