Into the Dark Jacqueline Yallop, 2023-11-09 Often poetic highly researched and thought provoking New Scientist Gently and thoughtfully enquiring The Spectator Can you remember the first time you encountered true darkness The kind that remains as black and inky whether your eyes are open or closed Where you can't see your hand in front of your face Jacqueline Yallop can It was in an unfamiliar bedroom while holidaying in Yorkshire as a child and ever since then she has been fascinated by the dark by our efforts to capture or avoid it by the meanings we give to it and the way our brains process it Taking a journey into the dark secrets of place body and mind she documents a series of night time walks exploring both the physical realities of darkness and the psychological dark that helps shape our sense of self Exploring our enduring love hate relationship with states of darkness she considers how we attempt to understand and contain the dark and as she comes to terms with her father's deteriorating Alzheimer's she reflects on how our relationship to the dark can change with time and circumstance Darkness captivates baffles and appals us It's a shifty thing of many textures many moods a state of fascination and of horror an absence and a presence solace and threat a beginning and an end Into the Dark is the story of the many darks that fascinate and assail us It faces the darkness full on in all its guises and mysteries celebrating it as a thing of beauty while peering into the void
