Clinging to Survival Meagunn Hart 3 5 When people think of the world's wildcats they picture big ones lions tigers leopards
and jaguars However that excludes more than 30 species of wildcats documented across much of the world Most regions lay
claim to their own variety of wildcat and for centuries the island of Taiwan was fortunate enough to have two the Formosan
clouded leopard and the Taiwanese leopard cat Sadly due to a combination of overhunting and habitat loss clouded leopards
are thought to be extinct in Taiwan today The leopard cat on the other hand is still clinging to survival with estimates putting
the total population at fewer than 500 individuals Unlike clouded leopards leopard cats can hide in plain sight They're the
same size as a domestic cat and have similar tendencies they primarily eat mice and rats and though they can swim they
prefer to avoid water Leopard cats sit firmly at the top of the food chain in the places they call home mainly the low altitude
mountain regions of Miaoli Taichung and Nantou Their presence in these areas keeps the local ecosystem in balance
Research begun little more than a decade ago has started to demonstrate just how essential they are and why we need to
save them 3 6 As one of Taiwan's few remaining larger carnivores leopard cats are critical for keeping rat populations in
check Protecting them also preserves Taiwan's biodiversity for future generations However some accuse the cats of getting
in the way of progress Farmers in particular have a grievance against the cats because they eat free range chickens To
protect livestock farmers often poison them The biggest danger to leopard cats today isn't hunters or farmers though it's cars
From 2015 to 2018 one leopard cat a month was found dead on Taiwan's roads having been struck by a passing vehicle To
address this problem the government has put into place a smart roadside detection system that can prevent accidents
involving the cats Tunnels have also been constructed under roads to allow animals to cross safely So far efforts appear to be

working as evidenced by the drop in leopard cat deaths Even so leopard cats still have a long way to go before they re in the clear Those who want to help can choose eco friendly products that don t pollute their habitat Additionally drive slowly on mountain roads and report any traps you see while walking in the woods Together we can make sure the leopard cat doesn t go the way of the Formosan clouded leopard
